## Masked Men Kill One, Wound Another In Roadhouse

### POLICE HAVE NO CLEW TO REAL MOTIVE

Believe It Was Grudge Murder, but Wounded Man Doesn't Know Gunmen

VICTIM WAS MOONSHINER

Assailants Escaped by Automobile in the Direction of Wisconsin Rapids

Wisconsin Rapids—(P)—Ray Davis, 40, was shot and instantly killed and William Bauer, 26, was probably fatally wounded by two masked men who Friday night entered the roadhouse of Frank Flatoff, north of Wisconsin Rapids, and fired without a word of warning or explanation.

According to the story told District Attorney Marvin S. King by Flatoff and his wife, who were quizzed following the shooting, Davis and Bauer farmers, had been sitting in the place less than 10 minutes, when a light car drove up in front of the saloon. A minute later two men entered the door, their faces covered with long white masks.

"Davis, throw up your hands," said the taller of the two men, who was armed with a rifle.

SHOT THROUGH JAW

As Davis started to rise he swung the rifle to his shoulder and fired and Davis plunged forward on his face. The bullet, it was found, shattered the jaw and passed through the base of the brain lodging in the wall behind him.

"You're next, Bauer," said the other masked man, and fired from what appeared to be a sawed-off rifle, wrapped in rags. The bullet caught Bauer in the abdomen, and he jumped from his seat and ran to the back of the saloon and up the stairs.

The masked slayer backed out of the saloon and jumped into their car which they headed back toward Wisconsin Rapids. Flatoff and his wife, who with Davis and Bauer had been alone in the place, made no attempt to prevent their escape, but after they had left went to the home of a neighbor and notified the authorities.

STORIES AGREE

Bauer, the wounded man was taken to a hospital, where he told the same story of the shooting as did the Flatoffs. He was unable to offer any hint as to who the murderers might be or as to the motive of the crime. According to the physicians attending him he has no possibility of recovering.

No explanation for the killing has been advanced by the authorities here. Bauer and Davis, so far as is known, met quite casually in the Flatoff saloon, and while Davis is known to have been engaged in the manufacture of moonshine whiskey, it is not known that he had been involved in any quarrels.

An inquest was to be held Saturday. Davis was married and leaves a wife and six small children. His home was on a farm in the town of Lincoln, Portage-co., about ten miles east of Wisconsin Rapids just across the Wisconsin river from Michigan station where until recently Flatoff conducted a saloon. He had formerly lived near Wisconsin Rapids.

Bauer is unmarried and lives on the farm owned by his mother not far from the scene of the shooting.

### IRISH RENEW THEIR RAIDS ON PRISONS

LONDON—(P)—The Republicans in Ireland apparently have started anew their raiding activities. Reports from Dublin Friday told of the release through a stratagem of a number of Republican prisoners incarcerated in Mount Joy prison. On report gave the number of prisoners released as 19, and the other as six. There also seems to be some discrepancy in the reports as to the methods employed in getting the men out of the prison.

A dispatch to the Daily Express from Dublin says that three men in police uniforms and having with them three supposed prisoners were admitted to the jail. Immediately they gained entrance they whipped out revolvers, averted the wardens and released 19 political offenders.

### M'ARTHUR WAS INSANE, MEDIC INFORMS COURT

Judge May Order Beneficiary of Dodgeville Hermit to Testify in Case

Jacksonville, Fla.—(P)—The hearing of the suit of Luther McArthur to break the will of his uncle, the late Archibald McArthur, formerly of Dodgeville, Wis., has been postponed until Monday, and under a ruling by Judge Duhose, if the defense does not call George Rafferty, defendant, as a witness the court will call him.

The question came up late Friday when the plaintiff sought to place the defendant on the stand in behalf of the former, C. C. Howell, attorney for Rafferty objected, saying the burden of proof is upon Luther McArthur and that Rafferty should not be called except through regular channels. Judge Duhose upheld this contention.

Dr. Ralph N. Green, alienist, testified Friday he believed Archibald McArthur, who willed his fortune of \$200,000 to Rafferty, was insane prior to his death.

### MINERS WAGE PARLEY GETS SETBACK AGAIN

Harrisburg, Pa.—(P)—Governor Pinchot's plan to submit a proposition for the settlement of the anthracite suspension to the operators and miners in a joint session Saturday afternoon received a setback Saturday morning when Maj. W. W. Inglis, chairman of the anthracite operators' wage negotiating committee declined to meet the representatives of the mine workers until his committee first had conferred with the governor.

The governor had made arrangements to meet the wage negotiating committees of both sides at 2:30, John L. Lewis, president of the United Mine Workers, had instructed the miners' general scale committee to assemble in Harrisburg. Some of the members left for Harrisburg Friday night before the attitude of the operators became known.

Major Inglis wired the governor that he had found it impossible to get his committee together for a conference Saturday but if Mr. Pinchot desired he would endeavor to arrange a meeting after Monday next to consider any proposition the governor might make.

### JURY UNABLE TO END TEXAS STATE INQUIRY

Austin, Texas—(P)—The Travis-co grand jury which has investigated state affairs for two months passed "such matters as have appeared impractical of final disposition at this time," for consideration of the next grand jury. It submitted its report at noon, this being the last day of its term.

### BABY IN GREEN BAY CHOKES ON NIPPLE

Green Bay—(P)—Ronald, 11-weeks-old son of Mr. and Mrs. Michael Lecloux, choked to death Friday evening when he drew the rubber tip of a nursing bottle down his throat.

His mother had put the baby to bed and went about preparing supper. Hearing no sound, she suspected nothing amiss until her husband came home and asked to see "his little boy." The child was dead when found.

### WRIGHT DROPS DIVORCE BUT STARTS OVER

Withdraws Plan Not to Contest Action and Sues on Ground of Desertion

Chicago, Ill.—(P)—Suits of Frank Lloyd Wright, noted architect, for divorce from the sculptress Miriam Noel Wright, and of the wife against him, charging desertion and cruelty, have been withdrawn because his attorneys say, she "talked." Instead of allowing Mrs. Wright, who has written of her life with the architect in a Chicago newspaper to obtain a decree uncontested, he will go through with his original plan of suing on grounds of desertion. She is expected to sue for separate maintenance.

The suits were withdrawn in Baraboo, Wis., after the sculptress told how she had submerged her art and herself in him, spoke to no one else for weeks at "Tallieson," his Spring Green, Wis., estate, and fled with him to Japan where they lived for seven years. She named Mme. Olga Milanoff, a dancer, employed as housekeeper at "Tallieson" as having supplanted her.

Fred G. Silsbee, representing the builder, explaining the withdrawal of the suits said: "Our plan for a 'friendly' divorce is off through the tactics of Mrs. Wright. My client, instead of allowing her to obtain a decree uncontested, will go through with his original plan of suing for divorce on grounds of desertion."

The architect left here Friday night saying he was "going home." Mme. Milanoff also left for an unnamed destination. Mrs. Wright was prostrated by a sudden illness Friday and remained at her hotel.

In her story, Mrs. Wright said she had been "bullied" into agreeing to a divorce which she opposed after she had learned of the other woman, who, the architect said, "was necessary to his happiness."

Mrs. Wright in 1915 went to "Tallieson" after Mrs. Mamah Borthwick Cheney, for whom Wright left his wife and six children, had been slain with her three children by a crazed negro servant.

### CHAPMAN SLAMS COOLIDGE FOR PARDONING HIM

Writes Legal Brief Criticizing President for Abusing His Authority

Hartford, Conn.—(P)—Reprised from the gallows for three months by Governor Trumbull, Gerald Chapman, mail bandit convicted of murdering a policeman, is acting as one of the lawyers for himself.

In a five-page brief written with pen and ink in his cell and bristling with legal terminology he contends that President Coolidge has "immorally and unlawfully" employed the commutative power as an instrument of force. The president has commuted Chapman's sentence of 25 years at Atlanta for robbing the mails in New York in order that Chapman may hang in Connecticut for killing a policeman after he had escaped from Atlanta.

Chapman's lawyers plan to go as far as the United States supreme court, if necessary, to prove that he first should serve his federal sentence before being executed in Connecticut.

Chapman was sentenced to die next Thursday but the governor reprieved him until March because of habeas corpus proceedings which will be argued in federal court Monday.

### GOVERNOR "MA" IS OUT TO CATCH BOOTLEGGERS

Austin, Texas—(P)—Governor Miriam A. Ferguson Saturday offered a reward of \$500 for information leading to arrest and conviction for violation of the liquor laws of Texans whose property is valued at \$5,000 or more. The reward was offered in a proclamation. The governor asserted the funds at her command are limited "But I will use every cent available to continue this reward."

### Thrift Will Again Be Big Item Of Coolidge Message

BY DAVID LAWRENCE  
Copyright, 1925 by Post Pub. Co.

Washington, D. C.—Forecasting a presidential message has become a simple task under the Coolidge administration. Although Mr. Coolidge has not given the document to the press as yet for advance distribution, nearly everybody knows what's going to be in it.

For Mr. Coolidge doesn't believe in trying any new proposals until he has disposed of the old. Recommendations made in previous messages have been unacted on due to a press of legislation and lack of time. He renews those that are still pertinent.

But the principal characteristic of Mr. Coolidge is reliance on his cabinet. Virtually everything that will appear in his forthcoming message has already been divulged by cabinet secretaries either in speeches or statement.

On policy, Mr. Coolidge follows his cabinet so closely that they make no public announcements of importance without his knowledge and approval.

Take each topic which is uppermost in the public mind today and Coolidge attitude thereon as it will be explained formally in his message has already been indicated.

On taxation, the recommendation of the secretary of the treasury, Mellon, before the house ways and means committee have the hearty approval of the president.

On the world court, the president need simply renew his plea for harmony in the senate and adoption of the protocol with the Hughes reservations.

On shipping, the pronouncement of

### TRACE WOMEN BANDITS TO SIOUX FALLS, S. D.

Sioux Falls, S. D.—(P)—Reports that two women who held up the First State bank of Renner, near here Friday obtaining \$500 had made their home in Sioux Falls, were received Saturday by Sheriff George Boardman.

After holding up H. S. Wilkenson, cashier, the two women fled in an old automobile toward Sioux Falls. Sheriff Boardman expressed the belief, however, that they had doubled back on their trail after starting for this city.

The theory that the women had been living here was strengthened by reports that they had been seen several times in Renner, apparently to "get the lay of the land." Search also was being made for male accomplices who, the authorities think, assisted in the planning of the robbery and in the getaway.

### BANDITS GET \$5,000 IN CHICAGO BANK HOLDUP

Chicago—(P)—Robbers held up the First National bank in the suburbs of Riverside Saturday and escaped with about \$5,000.

The robbers were three in number and forced the cashier, J. R. Osterberg, to open the vault. Two employees and three depositors were herded behind the cashier's cage while the robbers stuffed bills into two white bags.

### BUILDING FALLS, 10 ARE INJURED

Cabaret Is About to Close Up as Ricketty Structure Collapses Over It

New York—(P)—Attaches of a cabaret escaped with minor injuries when a four-story building collapsed early Saturday on W. Thirty-Ninth-st., near Eighth-ave. One male performer was dug out of the debris by policemen and firemen.

Ten persons were injured, none seriously. Two of them were owners of the Arena club, which occupied the first two stories of the brick building, a converted residence. The others hurt were performers or other employees.

The club which catered to whites was in a residential district largely occupied by negroes. Nearby houses have recently been razed and the club's building was about to be torn down. The upper floors were vacant. The place was about to close for the night and all patrons had gone. A farewell song was being sung to piano accompaniment when the crash came.

### BETTING ODDS ARE 5-1 KIP WINS ACTION

Rooters on Sidelines Think No Jury Will Tie Rhinelander to Negro Wife

White Plains—(P)—Betting odds here are 5 to 1 that Leonard Kip Rhinelander will win his suit for annulment of his marriage to the daughter of a mulatto taxicab driver.

The argument of rooters for the stuttering millionaire is that, even though the weight of evidence might seem to be against him, a jury of white men cannot be expected to force him to continue as husband of a woman who is a negress.

The suit is the main topic of conversation here and gossip credits Isaac N. Mills with a plan to introduce witnesses when the trial reopens Monday, whose testimony will be more sensational than yet introduced.

Mr. Mills refused to comment on this beyond saying that he did not plan a lengthy cross-examination of the dusky wife, Alice Jones Rhinelander, or her father, George Jones, who are expected to be next witnesses.

It is predicted that Rhinelander's counsel will ask her if she still loves and is willing to effect a reconciliation with the husband who deserted her a month after their marriage last year. Upon publication of the fact that she had negro blood, she is expected to answer in the affirmative.

Counsel for both sides declined to comment on a rumor that the father of Mrs. Jones, a white daughter brought over from England 29 years ago, is now a prosperous businessman living near Poughkeepsie, N. Y.

Mr. Mills laughed at the report that Rhinelander's fortune of \$300,000 a legacy from his grandfather, had nearly all been spent in prosecution of the trial.

"I have no idea that he spent anything like \$300,000," Mr. Mills said, "and certainly I got very little of it."

Mr. Mills hopes for an early conclusion of the case.

### QUEEN IS LAID TO REST AMONG TOMBS OF KINGS

Body of Alexandra Conveyed from Westminster Abbey to Windsor Castle

Windsor, England—(P)—England's Queen Mother was brought home to rest among the tombs of the kings at Windsor Saturday morning.

While London slept, Alexandra's body was taken from Westminster abbey where the funeral services were held Friday and conveyed by motor hearse to the most beautiful of all the royal castles in England.

As the procession entered the palace grounds the sun's rays flashed on the flag draped coffin and brought into strong relief the gray, snow capped towers of the ancient home of royalty.

The casket was placed on a catafalque below the steps of the altar in St. George chapel where it will rest amidst a profusion of flowers until a sarcophagus is prepared beside that of Alexandra's husband Edward VII. At 11:30 o'clock a simple private committal service was held with all the royal family present. The ancient cloister abutting the royal chapel was filled with wreaths from all parts of the world. Not since the funerals of Victoria and Edward VII has such a magnificent collection of choice flowers been seen.

By noon thousands of people had already come to view the cloister and many more thousands are expected Sunday.

### 12 DEGREES REGISTERED BY MILWAUKEE MERCURY

Milwaukee—(P)—Wisconsin's most severe cold wave of the present season ran the mercury down to 12 degrees above zero Friday night, and Saturday it was making a slow climb back to more pleasant temperature.

The cold weather rode in on a northwest wind Friday and continued sliding through the day and night. Saturday the weather was clear.

### ARISTOCRATS OF U. S. BARNYARDS PASS IN REVIEW

Chicago, Ill.—(P)—The aristocracy of the barnyard passes in review Saturday at the opening of the twenty-sixth annual International Livestock exposition.

Cattle from virtually all parts of the United States and Canada, horses and sheep and swine representing 30 breeds, are included in the 11,500 head of animals exhibited. Hay grain and small seed displays number 5,000.

A collegian judging contest, with teams of five students from many of the biggest universities of the United States and the Ontario Agricultural college officially opens the exposition.

### PASTEUR METHOD IS SUCCESS IN CHEESE MAKING

Experiments in Pasteurization of Dairy Product Are Called Satisfactory

Manitowoc—(P)—Wisconsin, the leading state in the production of cheese and one of the largest contributors to the world's supply, is about to offer a new epicurean delight in a product to be known as pasteurized cheese.

Extensive experiments in pasteurizing milk for use in cheese manufacture have failed for the principal reason that then known methods resulted in the destruction of mineral salts. This necessitated the addition of commercial acids and rennet extracts to set the milk.

By the use of a special vat of different construction than that now in common use pasteurizing under the new process now is a success in cheese manufacture, Charles Pauly field representative of manufacturers, here claims. The experiments have been successfully conducted at various cheese factories in this vicinity in the last six months.

The new cheese has a mild flavor and retains high grade texture and sufficient moisture to satisfy the most exacting, Mr. Pauly says. This flavor, texture and moisture appear from the tests to be uniform, thus eliminating the greatest trouble in cheese manufacture whether the variance heretofore has been a bane of the industry. Pasteurized cheese will revolutionize the cheese business in all producing states, Mr. Pauly says. Manitowoc is the home of the new process.

### MOB OF REDS WRECK HOMES IN PEKING

Peking—(P)—The homes of seven government officials were wholly or partially wrecked Saturday night by a mob of 1,500 men, to include Red elements, adherents of the Kuomintang or People's party students and hoodlums. The attacks on the officials' homes followed an unsuccessful attempt by the rioters to stage an anti-government parade.

General Kuo Song-Lien, supporter of Marshal Chang Tso-Lin, the Manchurian war lord, has established headquarters at Chinwangtao on the Chihli coast, while his forces have occupied Shanhaiwan a short distance to the northeast on the Peking-Mukden railway. Chang's followers are concentrating upon the Chin Chow Fu, 140 miles to the northeast, on the railway, and an attack is expected near Shanhaiwan.

### MAY SOON KNOW WRITER OF POISON PEN NOTES

Beloit—(P)—Interest in the "poison pen" mystery in Maple Lawn school district, Turtle township, near here is approaching tension stage as the date of a promised "denouement" draws near.

A meeting has been called to be held Monday evening at the Maple Lawn school building for the purpose of hearing a report made by a Chicago detective who a few weeks ago conducted a "letter writing" experiment to determine who wrote threatening letters connected with school matters, to members of the district.

At the last special meeting of the school district, every person above the age of 15 was present and submitted samples of hand writing. The detective dictated extracts from the threatening letters and asked each person to reduce them to writing.

The meeting Monday may reveal the name of a suspect. F. J. Hennecke, school district chairman, indicated.

## 7-DAY CRISIS OF MINISTRY COMES TO END

Premier Himself Will Retain Important Portfolio of Foreign Affairs

Loucheur, Richest Man in France, Will Succeed as Finance Minister

Paris—(P)—France's seven-day ministerial crisis is ended. Leaving Elysee palace after a conference with President Doumergue Saturday, Aristide Briand, the premier-designate, confirmed the following as the cabinet which he would present to the president in the course of the afternoon.

Premier and minister of foreign affairs—Aristide Briand.  
Minister of justice—Rene Renoult.  
Interior—Camille Chautemps.  
Finance—Louis Loucheur.  
War—Paul Painleve.  
Navy—Georges Leygues.  
Public Instruction—Edouard Daladier.

Commerce—Daniel Vincent.  
Public works—Anatole De Monzie.  
Hygiene—Antoine Durafor.  
Pensions—Paul Jourdain.  
Agriculture—Jean Durand.  
Colonies—Leon Perrier.

M. Briand called at the Elysee Palace Saturday morning and informed the president that he found the work of completing the cabinet more laborious than he expected Friday night.

WORK DELAYED

A last minute hitch over the portfolios of Interior and War caused the final delay in the solution of the ministerial crisis, which has been the longest on record in France since 1910.

The insistence of the radicals that the ministry of the interior be given to a member of their party caused the premier-designate to make some change in the lineup as forecast. Rene Renoult, who held the portfolio in the Doumergue cabinet of 1913, was mentioned for the ministry of the interior, but he was given the portfolio of justice.

Saturday morning's hitch was also due to the fact that the senate demanded more representatives in the cabinet, the preliminary list as semi-officially forecast containing only three members of the upper house, senators De Monzie, Perier and Roussier.

Upon arriving at the Elysee palace Saturday afternoon M. Briand said there might be a few minor changes but that he would be ready to present his collaborator to the president by five o'clock Saturday afternoon.

HAS NOT ACCEPTED

M. Briand qualified the list only by saying that M. Jourdain had not yet accepted the portfolio of pensions and that he might be switched to the ministry of hygiene, M. Durafor taking pensions.

At any rate, M. Jourdain is certain to be in the cabinet. This will be the first time that Alice-Lorraine has been represented in the ministry since the premiership of Poincare.

M. Briand intends to devote most of his time to foreign affairs. He has appointed Pierre Laval as under secretary of state for the presidency of the council and the latter will attend to internal matters connected with the premiership.

M. Laval was a full fledged minister in the first Painleve cabinet, but accepted the under secretaryship at the request of former finance minister Caillaux who is a close personal friend.

The new cabinet is composed of four senators and nine deputies. It was to meet for the first time under the chairmanship of President Doumergue late Saturday.

# PACKED HOUSE AT LABOR MOVIE

Public Is Taught Value of  
Unions in Welfare of Work-  
ing Population

Lawrence Memorial chapel was packed Wednesday evening for the motion picture, "Labor's Reward," which was shown under auspices of Appleton Trades and Labor council. The performance was free to the public in order that the truth about labor unions could be known.

Ephraim Kaufman, organizer for the United Garment Workers union, was here as lecturer and spoke for about half an hour. He was introduced by P. E. Bachman, president of Appleton Trades and Labor council. Mr. Kaufman explained the purpose of the picture and outlined briefly the story it was intended to convey. He also described some accomplishments of the labor movement.

Labor's contributions to civilization and to the betterment of humanity were shown in the motion picture. A story was interwoven through the scenario which contrasted the union man, backed by powerful influences for general welfare, with the non-union man who had to endure depressing conditions, danger in industry and lack of care when ill or injured. Stress was laid on the meaning of the union label on goods and the insignia of the various crafts were shown. Such general movements of today as compulsory educational laws, 8-hour day, workmen's compensation, safety requirements, vocational schools and other benefits to the workingman were emphasized through the scenes.

## DISTRICT M. E. LAYMEN WILL MEET HERE SUNDAY

Laymen of Appleton district of the Methodist church will hold a rally at 2 o'clock Sunday afternoon at First Methodist Episcopal church. The district includes 45 churches from this part of the state. Invitations have been sent out to about 125 laymen. The question of organizing laymen for district church work will be discussed and there will be a number of addresses by out-of-town speakers.

## JUDSON ROSEBUSH SPEAKS MONDAY TO LIONS CLUB

Judson G. Rosebush will be the principal speaker at a luncheon dinner of the Appleton Lions club Monday noon at Conway hotel. The subject of his talk has not been announced. The luncheon is the gift of Dr. J. A. Holmes, a member of the club, who has recently been on a hunting trip to northern Michigan, and returned bringing home a 220-pound buck. Dr. Holmes will give a talk on his trip. In addition to the address by Mr. Rosebush.

## LOCAL MAN IS ACCUSED OF EMBEZZLING \$1,731

J. Bernie Vincent of this city, agent for the Midwest Commercial Credit Co. of Chicago, was arraigned in municipal court before Judge Theodore Berg Friday afternoon on a charge of embezzlement, and the case was adjourned to Thursday, Dec. 17, at 2 o'clock in the morning. Bail was fixed at \$5,000 and was furnished by his mother, Mrs. Charlotte J. Vincent. Vincent is charged with having embezzled \$1,731 on or about Aug. 25. The warrant was sworn out by P. E. Ankrst, representative of the company, on Nov. 24.

## PAUTZ GROCERY CLOSED BY SHERIFF'S ORDER

The grocery store owned and operated by Otto Pautz at 225 N. J. pleaton-st. was closed Wednesday by Sheriff P. G. Schwartz on a writ of attachment against Mr. Pautz. Fred Josthuma, a resident of Columbia-co, is the plaintiff in the proceedings. Mr. Pautz recently purchased the store from a cousin, Otto Rogge, who moved from the city.

# CITY BUNDLES UP AS MERCURY HOVERS AT ZERO

Appleton people awoke with a shiver Saturday morning, and realized that winter virtually has arrived as the first real zero weather of the season was the order of the day. At 6:30 in the morning the mercury stood at four degrees above zero, according to the thermometer of the Schaefer Hardware Co. This was by far the coldest temperature recorded this season; the nearest to it was ten above. The low temperature Saturday forms a sharp contrast to Saturday of last week, which was a typical spring or early fall day. At that time the temperature was 44 above zero early in the morning, and rose to 56 at noon.

## DIESEL ENGINE IN AUTOMOBILE

Combination of Diesel and  
Gasoline Engine May Be  
Motor of Future

BY ISRAEL KLEIN

Signs point to the gradual decline and ultimate abandonment of the gasoline internal combustion engine.

Engineers still are striving for its perfection for both automotive and stationary use. But its days are numbered. A more efficient power plant is rising to replace the old.

That is the Diesel engine, or what engineers popularly call the oil-burning, injection engine.

The Diesel engine isn't ready for use as an automobile motor, although it is being tested even today under the hood of European cars. But it has gained recognition for services where it hadn't been expected to penetrate, and now it shows a strong tendency to enter the passenger automobile field.

MODERN MOTOR WASTEFUL

The present type of auto engine is notorious for its waste. It can be considered only about 7 per cent useful, in pulling an automobile. Yet its flexibility, its prompt response to control, its lightness, its cleanliness in use of gasoline, its simplicity in construction and its low cost, combine to keep it in popular use.

The Diesel engine, as it is known today, isn't what will replace the present automobile power plant. It costs more, it's much heavier, it's less flexible and responsive, it's gross and foul-smelling, it is too complicated for general use.

But it's about three times more efficient than the engine in use today. Its fuel consumption is less even if gasoline is used in place of crude oil. And it's sturdier and more resistant to wear and tear.

COMBINATION IS IDEAL

What may arise from years of research in the immediate future, will be perhaps a combination of the two types of engines for automotive use. Prominent engineers are discussing this possibility today. They see in the Diesel engine's ability to burn low-grade fuel, the answer to the

The children again may also be named after the father or mother, or one child may assume the name of one parent and another that of the other.

## CRANKSOME-DILUTION PROBLEM

And they also see in the present engine's construction efficiency, the answer to the flexibility and vibration problems.

One difficulty engineers have been facing is the expectation of a much higher efficiency from the Diesel engine in the automotive use, because of its good work in stationary use as compared with the present type of auto engine.

"The important point in the application of the Diesel engine to the automotive field is the great difference between what we have expected from an automotive engine and what we have learned to expect from a Diesel engine," says Floy Yost, noted Chicago engineer.

"The average automobile engine," he adds, "if it operates the car for 10,000 miles at an average car speed of 20 miles an hour, runs 500 hours and we expect to overhaul it."

"In contrast we expect a heavy duty oil engine to operate six or seven days a week, every week in the year, and after three or four years of that kind of service, we are willing to overhaul it."

"The proportion we expect is about 40 to 1, representing the handicap we must overcome in applying the Diesel engine to automotive work."

## "Y" CAGERS VICTORS OVER SEYMOUR BOYS

Superior team work and shooting added the Appleton Y. M. C. A. basketball team to win its first game of the season Friday evening at Seymour from the Congregational church team of that city by a 30-17 score.

The score at the half was 17-0 for the local boys. Knepp was the individual star of the fray, his seven baskets and two free throws counting 16 Appleton points. P. Cockson, the other local forward, added two baskets and a free throw. A. Cookson, center, scored a double marker and two singles and Steinberg and McCann, guards, scored a basket apiece. Murphy, sub guard, added a free try.

Melter scored 11 of Seymour's points with five baskets and a free throw. Ness played the other forward for the home boys. Sherman jumped center and Frieman, Baumann and Brendall played guards. The Appleton team will play the strong Onondaga Indians, led by Metoen, at the Onondaga "gym" next week.

## RUSSIANS MARRY ON 3 YEARS PROBATION

Berlin—(AP)—Marriages on three year probation have been authorized by the Soviet government, writes the Berlin Lokal Anzeiger. After this period both parties will be privileged to contract a new and permanent marriage, if mutually the bond has proved satisfactory. Otherwise, each party will be at liberty to separate without going through any of the usual divorce formalities.

The law was passed to clarify the state of matrimonial confusion existing in Russia, said the Anzeiger. The probationary marriage needs only to be registered at the city clerk's office. If the marriage ends in failure, the registrar will simply draw a blue pencil mark through both names, whereby, officially at least, the marriage will be shown never to have existed.

The present age at which a young man in Russia may marry is 18 and that of a girl 16. The wife may either adopt the name of her husband or retain her own. A third contingency is that the husband may adopt his wife's name.

The children again may also be named after the father or mother, or one child may assume the name of one parent and another that of the other.

# TREATING SICK CREWS BY RADIO

Ships That Do Not Carry Doc-  
tors Are Making Increased  
Use of Wireless

Los Angeles, Calif.—(AP)—The chart for radio-treated patients in the receiving hospital here is mostly blank. The physician who reaches ships with ill crews in all parts of the Pacific frequently does not know whether he or Davy Jones won.

Ships that do not carry doctors are making increased use of the radio when sickness visits their cabins. San Pedro picks up these calls for medical assistance and relays them to the hospital here.

A physician digests the symptoms and prescribes a remedy. In a few minutes the answer to the distressed query is flashed back to the ship. If the case is serious, a continuous flow of messages between the hospital and vessel is maintained. But in the majority of cases, the results are never known.

Treatment can be given by the local hospital to positions as distant as Singapore.

Efforts are being made to have all ship lines operating tankers and freighters adopt a standard medicine chest. By this means the police physicians at the hospital will know what medical supplies are available for their prescription.

## TRY CORRESPONDENCE SCHOOLS OF RELIGION

Chicago—(AP)—Religious instruction by mail for children in isolated and rural districts is the solution of the problem of those who live too far to attend Sunday school regularly, in the opinion of Miss Vera L. Noyes, supervisor of religious education in the Chicago diocese of the Episcopal church.

Miss Noyes has worked out a system that aims to bring religion into the everyday life of the child, "so that religion may be real, attractive, and effective."

Each week the pupil receives through the mail material which will not only cause the child to learn something, but also to think and to do," she said. "The lessons are graded and planned to fit the needs of the various ages of childhood."

"And yet the correspondence is not for the child alone. It is creating in every home it touches a religious atmosphere."

## RABBITS ONCE PEST, NOW BRING REVENUE

Wellington, New Zealand—(AP)—Modern woman's fondness for furs is enabling this country to turn its rabbit pest into a source of profit.

For many years multitudes of rabbits were slaughtered merely to keep them from destroying the crops. With the discovery, however, that the rabbit's coat could be dyed and made to look like a more expensive fur, he became an asset instead of a liability.

Last year 18,500,000 rabbit skins were exported from New Zealand to the United States and England. These skins were valued at upwards of \$4,600,000. Rabbit trapping has now become a well established and remunerative business.

The opossum is another animal which New Zealand is turning into profit. America takes most of the blue and grey opossum skins. The darker furs go largely to Great Britain.

## MAN NEAR DEATH AFTER PLANTZ AUTO HITS HIM

E. J. Plantz of Antigo, district attorney of Langlade-co and a former resident of Appleton, was driving an automobile which struck and seriously injured August Schultz of Tilleda. The accident occurred Thursday night on a highway near Antigo. Schultz was said to have been standing in the road near his automobile, which was being towed toward Bowler after a collision with another car. The Plantz car struck and injured him seriously. The man is said to be near death.

Mr. Plantz is a son-in-law of J. L. Wolf of this city.

Mr. and Mrs. David Preitsschneider have returned from Milwaukee where they visited at the home of Mr. and Mrs. H. C. Marquardt over Thanksgiving.

## BELOIT MEN DISCOVER SAHARA DESERT TOMB

Chicago, Ill.—(AP)—Discovery of a great Sahara desert tomb treasure by the Count DePurock Beloit, collector of the Hoggar mountains, was announced Saturday in a cablegram from the Countess DePurock to Dr. George L. Collic, curator of the Logan museum of Beloit college, Beloit, Wis. The message was rather cryptic but unusual significance was attached to it since the members of the expedition previously have reported even rather startling discoveries by letter. Frank G. Louan, retired Chicago business man who financed the Beloit college part of the expedition, immediately sought to have obscure parts of the message cleared up.

CHILD FATILITY  
BEING REDUCED  
BY PLAYGROUNDS

National Safety Council of  
Engineers Strongly Favors  
Supervised Play

New York—(AP)—Fatal street accidents of children are much fewer in cities amply supplied with well distributed playgrounds than in cities not so well supplied with these safety zones. This conclusion of the National Safety Council engineers was made public by the Playground and Recreation Association of America with which the Council is cooperating in its safety campaign.

The investigations of the safety experts in most of the cities cover the three year period 1922-1924 and show that cities with the most playgrounds had only one third to one-fourth as many child pedestrian fatalities as adult fatalities.

In Cleveland, with a high pedestrian fatality rate, less than 30 percent of the victims were children, according to the study. The city has 72 supervised playgrounds. Its low percentage of child fatalities is in marked contrast to the high percentage in an eastern county, where playgrounds are few and poorly distributed.

In Toledo, very few child fatalities were found within normal driving distance of playground locations. Toledo has 12 playgrounds. The positions of the grounds were plotted on a spot map and circles of a quarter mile and half mile radii were drawn about each to indicate their effective area for the different ages of children. Out of 32 child automobile fatalities during the three years, 1922-1924 inclusive, only four occurred within the quarter mile circles and six in the half mile distance.

In Richmond, which has many playgrounds in proportion to the population the child automobile fatalities were less than 25 percent of the total number in which pedestrians were involved. Only 12 children were killed by automobiles in the city during a three year period ended December 21, 1924.

Two hundred thirty-one cities established 677 new playgrounds last year, the Playground and Recreation Association reports. New athletic fields number 132.

STAGE  
And  
SCREEN

RAMON NOVARRO  
SCORES HEAVILY  
IN NAVAL MOVIE

Just when ingenuity in the movies seems to have been exhausted and plots become flagrantly repetitious along comes a photoplay that commands even sophisticated attention and redeems nearly every film that fell below par.

Such a photoplay is "The Midshipman," which is showing at the Elite Theatre today and tomorrow with Ramon Novarro in the starring role. It was produced by Metro-Goldwyn-Mayer, and directed by Christy Cabanne.

SCREEN VERSION OF FAMOUS  
STAGE HIT SOON HERE

The widely heralded Metro-Goldwyn-Mayer picture "The Merry Widow" is coming to the Elite theatre on Monday for a 5 day run. It presents one of the most significant combinations effected for the screen. It unfolds a picturesque romance of a gallant prince and a popular American dancer in a small continental kingdom, and in the hands of Erich von Stroheim, ideally suited to stage such a thing, the production is said to fulfill all that which is expected of it. The title role, entrusted to Mae Murray, furnishes this piquant actress with the best role of her career and gives her full opportunity to display the charm, vivacity and talent for which she is so justly famous. John Gilbert who co-stars in this picture with Miss Murray gives a performance that brings him still further to the front as a popular idol. Von Stroheim has a recognized genius for selecting types that are remarkably fine actors, and then inspires them to do the best work of their careers. The result is that each character stands out like a rare metal. The cast includes such favorites as Roy D'Arcy, Thilly Marshall, George Fawcett, Duke Fuller, Josephine Crowell, Estelle Clark, Don Ryan, Thelma Mack, Edward Connelly, George Nichols and Lou Bell.

"THE OVERLAND LIMITED"

One of the season's most thrilling photoplays is announced for the Selk Theatre Monday, Tuesday and Wednesday when "The Overland Limited," is scheduled for its first presentation here. The story of this rail road romance is an original from the pen of Jas. T. Tynan, dramatist of "The Great Divide" and other hits, and contains romance, drama, comedy, and thrills in equal measure.

Film fans will also have a lot of other things to enjoy in this railroad drama as the cast is composed of such popular favorites as, Malcolm McGregor, Alice Lake, Ralph Lewis, Olive Borden, Ethel Wales, Charles Post and many others of equal note.

The locale of the story of "The Overland Limited" ranges from the campus of an Eastern college to the roaring rivers of the Rocky Mountains. Actual construction of the gigantic dam and a steel bridge over a big river are shown in detail, and the crashing climax to the picture comes when the giant locomotive breaks through the steel girders and plunges one hundred feet into the river below. This is said to be the most thrilling and realistic climax made for a photoplay. "The Overland Limited" is the very best type of photoplay at its best. A picture

DELIVER "SPECIALS"  
ON CHRISTMAS DAY

Special delivery mail and special handling mail which bears special delivery stamps will be the only mail delivered on Christmas Day this year, according to William H. Zuehlke, postmaster. All other mail will be held over until the following day. The only exception to this rule will be perishable goods, which will be treated as regular Sunday deliveries. This type of goods will be distributed as special delivery mail and the regular fee for special delivery will be collected by the mailman. It is the belief of the post-office that people are glad to pay this fee for special service rendered where perishable goods are concerned.

BADGER SCHOOL BANDS  
MEET IN GREEN BAY

The 1925 state school band concert will be held at Green Bay in May. It was decided at a meeting of the Wisconsin State School Band association held at Milwaukee Y. M. C. A. The concert is an annual occurrence and prizes usually are given for the best performance in the concert. It is expected that about 1,500 young persons will compete in the music contest.

Appleton thus far has never been represented at the state school band contest. Last year was the first year that the local high school had a band. Two years of rehearsals and the acquisition of uniforms makes Appleton's entry next year more probable.

The complete list of judges has not yet been selected. It is understood, however, that F. Vander Cook, world famous musician and band leader, who conducts a large studio in Chicago, will be one of the judges.

that every member of every family may see and enjoy to the utmost.

"MY CHINA DOLL," the novel musical extravaganza which is coming to the Fischers Appleton Theatre December 1st will move a treat with its genuine youthfulness, its prettiness, its harmless melodies and whirlwind of romping dancers.

Cecil Maunser, who, it is said, has made a most delightful character out of the little Chinese girl, one of the many roles she is called upon to portray, is a vividly lovely girl who has a brilliant smartness of comedy, rather like that of Imi Claire.

The book, lyrics and music are by Charles George, well known author and composer and out of twenty some numbers in his tuneful score at least nine are already recorded "hits."

The sweet, love story about which the fitting songs and dances are humming concerns a little Chinese girl, who has fallen in love with a white youth. For revenge, after a scolding from her parent, she seeks the forbidden poppy pipe and in her dreams every wish is granted. Through a series of transformations she visits the Land of Story Books, the Land of Music and the valley of Flowers. All the scenes are dreams come to life, and they form the background for a musical comedy that is repeating again and again in the cities where it has shown.

LEGION EXPECTS  
BIG CROWD AT  
INDOOR CIRCUS

Acts Featured by Circuses  
Will Be Shows Here Beginning Tonight

A large number of people are expected to be on hand for the opening of the American Legion indoor circus Saturday evening at Armory G. The circus consists of ten high class acts, all of them being feature attractions with large circuses in the summer. The acts include wire walking artists, tap-dance performers, acrobatic troupes, and entertaining clowns.

Several other attractions are being featured by the legion in conjunction with circus week. Notable among these are the popularity contest to determine Appleton's best liked girl, a public wedding on Wednesday evening, Dec. 2, and a band concert by the 120th Field Artillery band Friday evening, Dec. 1. The circus will be opened Saturday evening by a street parade and concert by the American Legion Saxophone band. The parade will start from Appleton-st and proceed east on College ave to the armory, stopping at each intersection while a selection is played by the band.

A number of prizes will be given to patrons of the circus, chief among which is a Chevrolet coach which has been displayed on Appleton streets for the last few days. The circus will continue for a week, the final performance being Saturday, Dec. 3.

Again Buick has won first place in the motor car industry. This year, as in every one of the preceding seven, the public has invested more dollars in Buick automobiles than in other cars built by any member of the National Automobile Chamber of Commerce.

This entitles Buick to first choice of display space at the National Automobile Shows in New York and Chicago.

For eight years Buick has dominated quality motor car sales, enjoying nearly a decade of leadership, while a host of other fine cars were striving for the place of honor held by Buick.

A better idea of the magnitude of this Buick achievement may be obtained when you consider that to duplicate it, a motor car would need to capture first place now, then hold it continuously until 1934.

To have won the lion's share of public preference, year after year, for so long, conclusively shows superior merit in the Buick product.

Buick has built a better motor car, and public recognition has followed—has singled it out as the one car among all—which contains in the greatest measure the essentials of dependable, economical and luxurious motoring.

## MRS. BOYD AGAIN IS CHAIRMAN OF CHRISTMAS SEAL

### Expect to Dispose of Kaukauna's Allotment of Anti-Tuberculosis Stamps

Kaukauna—Mrs. C. D. Boyd will again direct the Christmas seal sale. She was in charge last year when the sale went "over the top". The campaign opened with a bang and will continue until Christmas.

"Taboo T. B." is our motto this year," said Mrs. Boyd, "and we are going to put over one of the largest Christmas seal sales in Kaukauna. It isn't just a duty to buy Christmas seals but it is an investment in health. Your money does not only go to pay for the free chest clinics that are of such value in checking the disease but it also is used to publish the "Crusader," a monthly health magazine that goes into the hands of about 15,000 people free of charge. The money also is used to pay for a school operated by the Wisconsin Anti-Tuberculosis association for training graduate nurses to become public health workers and for the modern health crusade that is reaching thousands of children health habits.

"Since the fight against tuberculosis was begun with forming of the Wisconsin anti-tuberculosis association in 1908 the death rate from this malady has been cut 4 percent and the association will not stop work until they have done much better than that.

"Preparations have been made to literally cover the city with stamps, and every home in the city will be reached through the special plans that have been made.

## Social Items

Kaukauna—The Ladies Social union of Brokaw Memorial Methodist church will hold its annual bazaar and supper Tuesday evening Dec. 2. Every one has been invited.

The Holy Cross congregation will give a benefit movie entitled "Back Home and Broke" starring Thomas Meighan on Wednesday Dec. 2 at the Holy Cross auditorium. The proceeds will go to a needy resident of this city.

The Odie chapter of Eastern Star held its regular meeting Friday evening in the Masonic hall. Routine business was disposed of.

A large number of local Knights of Columbus will attend the second and third degree initiation at Appleton Sunday afternoon. A large class will be taken into the lodge and the work will be done at the Appleton armory. A banquet for the candidates and all members of the lodge will be held at 8:30 following the initiation.

## TRAINING SCHOOL WINS MUSIC MEMORY CONTEST

Kaukauna—Training school pupils scored the highest average, 79 percent, at the music memory contest on Tuesday afternoon. Junior high averaged 75, Nicolet 74 and Park 72.

Helen Starke, Nicolet sixth grade, was the only participant in Tuesday's contest to score 100. Besides having every selection every composer, and every composer's nationality correct, all the spellings were nearly perfect. Dorothy Gehl, Mary Taylor, Lena Hilgenberg and Eva Goldin made scores of 99 each, having an error in one composer's nationality. Betsey Ashe, Alta Wahl and Mildred Doerner also had all of the selections correct, but made one or two errors on the composers or their nationalities.

The music memory contest is an organized campaign for popularization of classical music the results of which are not measured according to grades made at the final contest. Even the pupils who did not know enough of the work to enter the final contest have gained a great deal, it was said.

The dramatizations were well done, and pleased the parents almost as much as the children, and was an interesting feature this year.

## WAUPACA WANTS OLD AGE PENSION MEASURE KILLED

### County Board Refuses to Adopt It — Approves Memorial for Repeal

Special to Post-Crescent

Waupaca—Waupaca board finished up its fall session on Wednesday afternoon and all members returned to their homes for the Thanksgiving holiday. Money was appropriated to pave small stretches of concrete road at Clintonville and New London, the work to be done during the season of 1926. A total of \$187,000 was voted for road construction and maintenance for the ensuing year. This is exclusive of the cost of administration.

Supervisor Fred Fisher offered a resolution opposing adoption of the old age pension plan as provided in the statute passed at the first session of the state legislature. The resolution memorialized the legislature of 1926 to repeal such law and also was unanimously passed Wednesday morning.

Holds for printing the 1925 proceedings of the board were received and a local concern was awarded the contract.

Jack Callahan won in two straight falls from Jimmy Graham, the Minnesota light heavyweight champion, in a wrestling match at the armory Wednesday night. The first fall came in 26 minutes and after 14 minutes of mulling the match was over with Callahan the victor. A good sized crowd greeted the men, who worked fast, much to the delight of all.

Much interest was attracted to the reprinting this week of an early day item in a local weekly. The article reproduced was one published in the Waupaca Spirit, Oct. 9, 1855 and is as follows: "We wanted—The undersigned begs leave to announce to the splinters of this section of the country that he has come to the full He would care for the information of all applicants for his heart and hands that he is 11 years of age, of medium size and by all ladies of cultivated taste considered good looking and smart. He is a member of the Methodist church, in regular standing, and as good, he flatters himself, as they will average. He is not wealthy but in comfortable circumstances, with fair prospects ahead. He is prompted to this step by the conviction that it will promote his own and the happiness of his family. All applications must be made within six weeks from this date to receive attention. None need apply who are over 35 or under 20 years of age. She should be good looking and of amiable disposition. None need apply unless of good moral character. In short we should have all the requisites to make a good wife and a kind agreeable companion. The subscriber is naturally kind hearted and obliging and therefore cannot tolerate explosive dispositions. His motto is 'let the wolf howl.' Let applicants study and understand themselves well before making application. Women who snuff smoke, chew tobacco, or those who have been divorced, need not apply. A. Woodward, Waupaca, Oct. 9, 1855. P. S. I have six children, all smart and good looking, and any women of good sense would esteem it an honor to take care of and instruct them."

The Young Ladies' Bible class of the Methodist church will meet with Mrs. A. E. Newsome, Fifth-st., Tuesday evening, Dec. 1.

St. Mark guild will meet with Mrs. F. A. Houseman, Jefferson-st., Tuesday afternoon, Dec. 1.

## PUBLIC CHEST CLINIC WILL BE HELD NEXT WEEK

### Friday and Saturday Will Be Devoted to Free Medical Examinations

New London—This year's free chest clinic under a plan which is carried on annually under auspices of the Civic Improvement league, will begin in the city hall Friday of next week, and will continue through Saturday. The clinic will be conducted through Wisconsin Anti-Tuberculosis association, and will be free to all residents of the city.

The clinic will be held in the second story of the city hall, and will be open between 8:30 in the morning and 5 o'clock in the afternoon. Two capable specialists will be present on both days to conduct the examinations.

Any person in the city is permitted to attend, especially those who may have doubts concerning the state of health. Children under the age of 16 must be accompanied by a parent.

The annual sale of Christmas seals was begun by a committee of the Civic Improvement league this week. The committee is composed of Mrs. L. P. Deacy, chairman, who is also chairman of the public health committee of the league, and the Messrs. Nels Demming, J. E. Egan, Leonard Cline, J. P. Egan, and Charles Demich. The committee has warned the residents of the city against buying seals that are peddled from door to door, the salesman often giving out the information that they official Christmas seals. The committee will dispose of the original seals in only two manners: that of mailing them to the various homes and stores, which is already done, and that of selling them personally.

Father John's Medicine Has Made a Different Girl of Her

From a Mother's Letter

This little girl is Marguerite Gonyer, youngest daughter of Mrs. A. T. Gonyer, of Orono, Maine. According to her mother, Marguerite "used to be frail and thin but since giving her Father John's Medicine, the improvement in her condition is very gratifying. It has made her an entirely different girl. Her vitality has returned and I am so well satisfied that I urgently recommend Father John's Medicine as a body builder."

The food elements in Father John's Medicine are exactly suited to children or older people who are thin and run down.

Father John's Medicine has had over 70 years success as a body building tonic as well as for colds and throat troubles. It contains no dangerous drugs—no alcohol.

## MARRIED FIFTY YEARS

MR. AND MRS. HUBERT NIESEN

Kaukauna—About 50 relatives and friends gathered at the home of John H. Niesen on Thanksgiving day to celebrate the golden wedding anniversary of Mr. and Mrs. Hubert Niesen. Dinner and supper was served to all of the guests and dancing, cards and music furnished entertainment during the day.

Mr. Niesen was born in the Town of Lake, near Milwaukee, on May 3, 1851, and Mrs. Niesen was born in Saukville Aug. 29, 1858. Mrs. Niesen formerly was Miss Catherine Old. The couple was married at Saukville where they lived one year. They then moved to Appleton where they resided for four years and finally settled at Kaukauna where they have lived since.

Mr. and Mrs. Niesen were parents of a large family of which seven children are still living. They are Michael Niesen of Kaukauna, Mrs. John Guntzknob of Chicago, John Niesen of Lake Nebish, Mrs. John Keolan of Milwaukee, John Niesen of Kaukauna, Mrs. Francis Reushe of Milwaukee and Robert Niesen of Kaukauna.

## SHIP APPLETON PRODUCT THRU PANAMA CANAL

Appleton Superior Knitting Works Has Customers in All Parts of the Country

That happy laughing bevy of well-dressed working girls that may be seen streaming across the Lake Street bridge at noon or evening, are very likely employees of the Appleton Superior Knitting Works.

Part of the knitted underwear requirements of many communities the land over are supplied from here. Some strange and at good way to many a citizen of our town and surrounding country, with consequent advantage to the local merchant, butcher, baker, and candlestick maker, who depend on local patronage. A pay-roll of many thousands of dollars annually is disbursed here, that consumers of Appleton Superior Knitting Works sweaters, hosiery, and mittens, the country over contribute to.

Contained within the walls of the factory are numerous batteries of knitting machines and accessories. From the comparative simple Lamb machines, invented by a clergyman of that name to save his wife the drudgery of long hours of application to hand knitting needed to provide the family hose, to the highly intricate and specialized vapidated and domestic machines, that seem endowed with a sensitiveness and dexterity rivaling the most nimble fingers, knitting intricate patterns and peculiar shapes with artistic accomplishment, rapidity, and sureness that has compelled grandmothers to turn to bridge and moves to wile away tedious hours.

Sweaters are manufactured here from the delicate and cunningly fashioned ones for the wee little folks to the heavy honor athletic sweaters worn by the Appleton proud of his sweater and his letter.

From Texas to Minnesota, from Michigan to California, many a well-known college athlete and high school star treasures a sweater with service stripes and letter all made in Appleton, Wisconsin.

Lumbermen seek for the northwoods, seek for the farmer, miner and laborer, are made here. In the pine woods, or tamarack swamps, deep in the copper mine or ravine, the open pit iron mine, keeping warm the feet of sportsmen after a day in the marshes, the duck hunter on the banks of New Foundland, the men of the air mail service, all know the worth and warmth of wool socks made by the Appleton Superior Knitting Works.

Tommy Atkins in the mud of Flanders, the Podu in the trenches and our own boys in the field in the late war, can attest to the wear, warmth and comfort of Appleton Superior Knitting Works wool hosiery, shipped at first to the Quartermaster departments at Chicago for inspection, their uniform good quality so impressed the military inspectors that inspection was dispensed with in their case and shipment. In heavy lined iron-bound cases containing several hundred dozen each direct to the field of battle, was ordered.

A cherished testimonial to the worth of Appleton Superior Knitting Works wool hosiery is the recognition from our government in the shape of a certificate with official seal, now hanging in the factory, attesting to the integrity, uniformity and worth of their product.

Fine wool socks are also made for the main-d. Made of a particularly soft wool, a knitted elastic covering for amputated limbs is made, that alleviates the supersensitiveness to irritation of the stump.

The ski rider, the skater, the hiker, and so forth, are catered to in brilliant colored sport socks and sport hose. The salmon fishermen of Alaska may be found wearing a peculiar mitten made in Appleton, Wisconsin. Made of pure wool in large sizes, their warmth retaining quality, though wet, the well known shrinkage property of wool yarn preventing spread, and the quick drying quality of wool, peculiarly adapt these mittens to the needs of these fishermen.

The Lake Superior fisherman working on the ice and from boat in late Fall and early Winter, knows the all wool warmth, wear, and worth of Appleton Superior Knitting Works mittens.

A new item is made in the chrysanthemum toque or bickey cap for short loving, bobbed heads, getting its name from the large pom pom on top of about the size of a prize winning chrysanthemum that it closely resembles.

Evidence of the lengths and round about ways business now days takes to make economical use of situations in market and transportation are recent shipments of Appleton Superior Knitting Works product to Seattle, Washington, via rail and lake to Boston, Massachusetts, via sea through the Panama Canal up the Pacific coast to Seattle cheaper than direct rail between here and Seattle.

From an humble beginning in Marquette, Michigan, the plant was subsequently moved to Appleton, twenty-seven years ago. While not the first in the field, this Company has outlived a number of others and is now regarded the oldest of its kind in the Valley.

At the time the Company was organized in 1898 the officers were:

## Huge Increase In Risk Business In Recent Years

Rabson Park, Mass.—Roger W. Rabson today discussed with this paper an industry to which we all contribute, but from which, he says, very few profit. That is to say, all of us pay premiums for life insurance, fire insurance, and other kinds of insurance; but to profit thereby we must die, have our property burned up, or be robbed. Even to profit from accident insurance we must hurt ourselves or someone else. Mr. Rabson's official statement is as follows:

**GROWTH OF INSURANCE**  
"Few realize the tremendous growth which has taken place in insurance during the past few years. Life insurance has grown with leaps and bounds and most companies are doubling their business every ten years. The figures of growth are almost staggering. This is because these figures are built up not simply from new business but also from the accumulation of interest payments. It must be remembered that a sum of money doubles itself in less than twelve years at a very low compound interest. Of course the growth of accident insurance, and to a certain extent fire insurance, is largely due to the automobile.

"Four factors have contributed to this growth: Briefly these are as follows:  
1. Selling of insurance has been put on a sound and high plane. Life insurance has probably the best organized sales force of any industry; that is, such insurance today is sold while other things are merely delivered as orders come in.

2. Life insurance has become adapted to modern business, in that it has developed group insurance, the insurance of executives, and other forms of business insurance. New uses are continually being found and developed.

3. High wages among the wage workers have made millions able to take insurance who heretofore have not had the money to do so. These wage workers are very wisely taking out insurance to provide for the education of their children in case the father should die before the children are self supporting.

4. Life insurance business was the original 'installment' business. Once it was had form to buy anything on the installment plan, but this has now changed and life insurance has proved for bringing this change about.

**A REPEAT BUSINESS**  
"Although life insurance has had a great growth, yet automobile insurance has had even a greater growth. Of the 17,000,000 cars now being used in the United States it is said that half of them are insured against fire, and one-quarter of them carry liability insurance. Those bought on the installment plan must, of necessity, carry fire insurance until they are paid for. Consider that 20 per cent of the cars on the road are still unpaid for and 70 per cent of the new cars are being bought on the installment plan; this greatly stimulates the business of insuring automobiles. The growth in ordinary fire insurance is unusually proportional to the growth of building. Every house built is insured and the more new buildings that are placed, the more the general rise in the cost of building has increased the value of older buildings and the insurance on these older places is gradually being increased.

"The reason why the Eastman Kodak Company, the Gillette Razor Company, and various light and power companies are such splendid investments is because they have a 'repeat' business. When one buys a chair, a looking-glass, or a coffin, he makes only one purchase; but when he buys a camera or a safety razor, or installs an electric fixture, he becomes a constant customer for films, lenses, and electric power. This suggests a very fundamental principle which every business man and investor should grasp; namely, get into a 'repeat' business rather than into a 'single sale' business. Sell cameras and films instead of tables and chairs; sell safety razors and blades rather than knives and forks; and

organized in 1898 the officers were: Wm. C. Brown, President; D. V. N. Harwood, Vice-President; E. J. Harwood, Secretary and Treasurer. The present officers are D. V. N. Harwood, President; E. J. Harwood, Secretary; A. H. Wickesberg, Treasurer; E. P. Goodrich, Manager; M. R. Elias, Sales Manager; W. W. Ingenthron, Superintendent; F. G. Schwandt, Stock and Shipping Clerk.

One man who has been very largely responsible for the growth and development of the company is E. J. Harwood, Secretary, who is the oldest active manufacturer in the city, having been on the waterpower 48 years. The company originally occupied one floor of the mill building then known as the present one. Gradually one floor after another was absorbed. In 1910 an addition equal to the original building was erected. A few years later a small addition was built.

Originally the company applied itself solely to the manufacture of lumbermen's stock, such as woolen, hosiery, mittens, etc. It drew its business almost entirely from northern Wisconsin and northern Michigan. Twelve salesmen are now employed, covering the North West and the South West sections of the U. S.

sell electric power rather than electric fixtures. When this is applied to the building industry, one sees at once the great advantage which the fire insurance companies have over lumber and building supply companies. The lumber dealer has only one chance to sell to the builder of the house and hence can make only one sale on a given house. A fire insurance agent, however, has an income from the owner of that house forevermore.

**INSURANCE AS A BUSINESS**  
"When everybody is rushing to Florida or going into the real estate business, it is well to remember that the old reliable insurance business is still very worthy of consideration. Insurance is not a spectacular business and profits in it are not large; but it is a very secure and safe business. Both fire and life insurance must, of necessity, increase with the population and the prosperity of the country. Automobile, accident, and burglar insurance are bound to continue to grow. Other forms of insurance will develop from time to time. Bright young men who are looking around for a safe and profitable line of business will do well to consider the insurance business, especially fire insurance. First, go to work for some insurance agent to learn the business and then get into business for yourself getting the privilege of representing a good line of companies. Insurance is a fine business for any young man who is willing to work. It is a business which grows slowly but constantly and ultimately grows to large proportions. Moreover, it should be a very profitable business in communities which are growing rapidly.

"Originally insurance was a cash business and then it became a 30-day business, but gradually the insurance companies are carrying greater and greater accounts receivable. I believe that this feature will increase more and more as the years go on, thus giving those in the business who have capital a real opportunity to use it. Insurance credits are usually good. There is also an opportunity for the fire insurance agent to make a profit on the installment of fire extinguishers, and various other side lines. It is surprising how few insurance agents are today taking advantage of the opportunity of selling these 'accessories' to their business.

**AN INVESTMENT**  
"The stock of no insurance company is listed on the New York Stock Exchange. Stocks of every other kind are traded in on the exchange, including insurance companies' stocks. This does not mean that they cannot be bought as they are quite actively traded in by brokers of Hartford and certain other insurance sections. It is always possible to buy fire insurance stocks—they have almost always proved a profitable investment. The same thing is true of automobile, accident, and other insurance companies. These stocks are seldom exploited, but are almost universally good investments. The largest life insurance companies are known as Mutual Companies and either they have no stock outstanding or sell only a small amount.

"Insurance companies' stocks are good for two basic reasons:  
1. The business is continually increasing. As already stated, the life insurance business increases as population increases and people become more prosperous; accident insurance increases as more buildings are constructed and as values rise.  
2. The risk is gradually decreasing. In the case of life insurance the length of life is gradually increasing and sickness is decreasing. The risks of fire insurance are decreasing because communities are having better water supply, and more stringent building laws.

"There are very few industries or investments where the business is sure to increase and the risks and operating expenses are decreasing. Furthermore, most states supervise insurance for the protection of both the insured and the investor. All of these things are gradually adding to the industry and should give it even greater prosperity in the future than it has enjoyed in the past. Of course, agents' commissions are small and the prices of stocks are high. All good things cost money. The stocks of insurance companies, however, are low in price when their actual merits are compared with the merits of stocks of most companies at the present time. With the Babson chart at 14 per cent above normal and the forty most active stocks averaging today 128 compared with 82 in the summer of 1924 insurance stocks are comparatively cheap."

## SAGHALIEN ISLE SOURCE OF JAPAN COAL NEEDS

Tokyo, (P)—The northern part of the island Saghalien could supply all the coal needed by the factories of Japan if mining was carried on according to plans drawn by experts, said Mr. Hidakoff, chief of the Russian investigation commission. "The coal deposits are great and almost immeasurable," he said. "Veins are so numerous that mines can be established readily in almost any part of the northern territory. The quality is also so good that the best of coal can be obtained from it."

## HIGH QUALITY OF WORK IS PRIDE OF PRINTING FIRM

Petersen and Bauer Move Plant When Business Shows Big Increase

A high grade and distinctive quality of printing never fails to attract attention, whether it is used in the business world for advertising, business announcements, and business forms, or whether it is for social purposes, such as invitations, programs, or social forms of any sort. A comparatively new firm among Appleton's print shops, the Peterson and Bauer Printing Co., has demonstrated, beyond a doubt, that it does distinctive printing of this kind, for the large increase in the volume of its business made it necessary for the concern to move into new and larger quarters about a month ago. The company is now located at 118 S. Appleton-st., and in its enlarged print shop is well equipped to take care of all types of commercial and other printing. The business of the company formerly was located in a shop in the basement of the Hotel Northern. The business has been in existence only two years under the firm name of Peterson and Bauer Printing Co. Mr. Peterson operated a printing establishment for five years before being joined by Mr. Bauer. Practically all the equipment of the concern is new machinery. A linotype has recently been purchased and installed in the new plant. At present there are two automatic presses, and a cylinder press has been ordered. With this equipment the company will be able to take care of any kind of printing in large or small orders.

A large quantity of programs and tickets are printed by the concern, and also a great number of handbills which are especially effective for advertising purposes. The Peterson and Bauer Co. is especially well equipped to print social invitations, announcements, and calling cards because of its large assortment of different styles of types or lettering. Quick service as well as a high quality of work is guaranteed.

## DEMAND FOR LUMBER KEEPING UP WELL

The lumber movement is remarkably well sustained, softwood shipments for the week ended Nov. 7 amounting to 97 per cent of the current production. In the central states winter weather is handicapping the movement from retail yards to farm consumers and ruins in the South are having the same effect. The market in the Northeast is also less active. Florida and the Gulf States, however, are taking enormous quantities of lumber. It may confidently be expected, says the American Lumberman, Chicago, that as soon as dry weather in the South allows cotton picking to be completed and building to be begun rural demand there will make large drafts on the mills.

Southern pine production by large mills has suffered some curtailment by rains, and many of the smaller mills have been forced to close down. Large pine mill output is about fifteen per cent below normal, and current orders were over eight per cent ahead of production. The West Coast mills again shipped the bulk of their week's cut, 96 per cent of it, but new orders were received for only 90 per cent of the cut.

Stocks at southern pine mills show depletion, and it is becoming difficult for them to furnish dry lumber. Stocks at Coast mills have increased since their resumption of full production, but it is pointed out that for the year to date they have shipped four per cent more than they produced. The Coast mills appear determined on better marketing practices, and there have been voiced suggestions that, until spring demand puts in an appearance, the mills operate only five days a week.

Demand for the southern hardwoods continues very active, and the furniture factories especially show eagerness to provide for their winter demand in gum. The southern forests are so saturated with continued rains that logging is impossible, and further mill shutdowns may be expected. Prices have received further advances. Prices of northern hardwoods show a firm tone, based on a continued heavy fall movement.

# RURAL CARRIERS START CENSUS OF HOGS IN COUNTY

## Mailmen Gather Information Concerning Production of Pork

Questionnaires for a hog survey, which is being conducted by the United States Department of Agriculture, were circulated among farmers by rural mail carriers Friday. Postmaster William H. Zuehlke has requested all farmers who receive the questionnaires to cooperate with the department by making as accurate and complete a report as possible.

The survey will be made with the help of the rural carriers who either distribute the questionnaires to a certain number of farmers along their routes, with the request that these be filled out, or make out the report themselves after interviewing the farmers. The carrier is instructed to get information from farms which will give a good average picture or sample of farms on his route, preferably by asking all farms along a part of his route, big and little, good and poor, owned and rented.

If a fair sample of all farms is returned in each state, figures or changes should show the same changes as all farms. It is impossible to take an actual census enumeration of all farms. It is impossible to take an actual census enumeration of all farms each year, so changes in production and acreage each year must be estimated from samples. The nearer these samples are to being exact, the more correct will be the estimates.

The need and value of such information for individual farmers and agriculture in general is great. Without dependable information as to actual production and trends of production both live stock and crops more balanced production and better market distribution are impossible.

The department of agriculture is the best qualified agency to undertake such work, but the accuracy of its estimates depends upon the accuracy of the returns made by farmers.

The beneficial effects that such information may have upon prices is shown by the level of hog prices during the winter of 1924-25 compared to the previous winter. The big survey of June and December, 1924, showed a decided decrease in hog production in 1924 compared to 1923. Marketing, however, during the winter from the 1924 crop were almost as large as the previous winter, and in December and January were the highest on record, in spite of these heavy marketing, hog prices were from \$2 to \$3 per hundred higher than during the winter before. The heavy marketings were rightly interpreted as being an early marketing of a smaller number of hogs caused by a short corn crop and indicating a correspondingly larger number of hogs.

# FAIRFIELD ON PROGRAM OF DE PERE WOMANS CLUB

Dr. O. J. Fairfield, of Lawrence college, is one of the speakers on the 1925-1926 season program of the De Pere Woman's club. Dr. Fairfield will address the club Jan. 27 on the subject, "The Selection of Planning and Handling of Pictures."

Other speakers already engaged by the DePere club are Mrs. Sol Levitan, wife of the state treasurer, Fred Leuning, Milwaukee; Mrs. H. S. Richards, Madison state chairman of international relations; Mrs. Edward Hammett, Sheboygan, first vice president of the Wisconsin Federation of Woman's clubs.

## POSTMASTER FINISHES INSPECTION OF ROUTES

The semi-annual inspection of rural routes out of the Appleton post office has been practically completed by William H. Zuehlke, postmaster, route 1 being the only one not yet examined. The postmaster will make his inspection of this route next week.

Note is taken of the condition of roads as well as mail boxes on these inspection trips. Roads must be in passable condition and mail boxes and posts must be in a good state of preservation, painted and in a location which is of easy access to the mail carrier. The owner of mail boxes not conforming to requirements is notified by the postmaster after the inspection.

The second inspection is made in the spring of the year.

# Appleton People To Hear Mme. Melius Sing Tonight

Between 25 and 35 Appleton persons will be in the Auditorium theater of Chicago Saturday night to hear Madame Melius. Chilson-Melius in her second appearance in American grand opera. Mme. Melius will sing Violetta in "La Traviata" and every seat in the huge theater has been sold.

Mme. Melius made her debut in American grand opera last week when she sang Gilda in "Rigoletto" and earned such an ovation that she was urged to sing again as a guest artist. Music critics after the performance declared she is one of the greatest artists that has ever sung from an American stage.

Mme. Melius came to America from Paris to attend the funeral of her mother, Mrs. W. H. Chilson, which took place a few weeks ago. When Herbert Johnson, manager of the Chicago Civic Opera Co., learned Mme. Melius was in America he invited her to sing in Chicago as a guest artist and her huge success followed.

A telegram was immediately sent to Paris asking for an extension of her leave of absence from her five year engagement with the Paris Grand Opera Co.

The following reply was received: "Paris sends greetings to Chicago. Congratulations to my great star. Your request is granted. Fouché."

So she will remain here until after the holidays.

About twenty-five years ago, an Appleton newspaper recorded that "Luella Chilson, the tiny three-year old daughter of Dr. and Mrs. H. W. Chilson, displays a remarkable bent for music. She delights in crawling up on the piano stool and while striking the keys with her baby fingers, utters the accompanying notes with astonishing fidelity. A brilliant musical career is predicted for her."

After many years of hard work studying at a Chicago musical college and with the famous De Reszke brothers in Paris the Courier of Paris says:

"Luella Melius sings simple melodies as perfectly as she executes the astonishing coloratura arias for which she is famous."

At the age of 16, Mme Melius started on her musical training in Chicago. At the end of her first year, in competition with 600 other students she was awarded the diamond medal of the institution for greatest achievement with a three year scholarship. After these three years she went to Europe and was invited to study with Edouard and Jean De Reszke for three years. After one year, the world war broke, Edouard died and Jean turned their beautiful home over to the French government for a hospital while his son entered the army.

Luella Chilson returned to America, and married. Daily she practiced along the lines down by the DeReszkes, besides engaging in many forms of war work. When the war ended there came a cablegram and Luella Melius went back to Paris and spent four years training with the DeReszkes. Many opportunities to sing before royalty came to the young Wisconsin girl and finally she made her operatic debut in Vienna. Followed appearance at all the musical centers of Europe and then her hurried trip to America in October because of her mother's illness. She arrived only two days before her mother's death and was soon thereafter invited to appear in Chicago.

## CHRISTMAS SEAL CAMPAIGN IS TO START SUNDAY

Committee Hopes to Sell 250,000 Stamps Before Christmas Day

The 1925 Christmas seal campaign which is conducted each year to raise funds to fight tuberculosis, is to open Sunday, Nov. 29, according to Mrs. C. O. Gochbauer, chairman of the local sale committee.

The method of distributing the seal this year will practically be the same as the one employed last year. Nearly every family in Appleton will be sent 200 seals through the mail and will be asked to purchase all of them or return those which he does not want. Students of the commercial department of Appleton high school, under the direction of Miss Decima Salisbury, will be in charge of the sale.

The local campaign committee will be appointed by Mrs. Gochbauer to visit the factories, banks and business places in Appleton, instead of sending an allotment of 200 stamps to each one of these places.

This year 250,000 seals will be circulated in the community, an increase of 80,000 over last year. One-half of the proceeds of the sale will go to the Appleton Women's club and the other half to state office of the Wisconsin Anti Tuberculosis association. The local club will use its portion of the proceeds to conduct chest clinics and other health and charity works during the next year and the state society will use the money obtained from the sale of seals to build open air camps in the country for those stricken with the disease and give them proper food nourishment.

## ANNUAL MEETING OF A. A. L. DEC. 21

Ballots on Trustees and Directors Will Be Counted at That Time

Monday, Dec. 21, is the date set for the annual meeting of the board of directors of the Aid Association for Lutherans here. At that time the ballots for trustee and directors will be counted and the vote announced. The board also will elect a vice president, as the term of the incumbent, T. P. Holenstein, Batavia, Ill., expires at that time.

Terms of one trustee and three directors expire this year. The trustee is Albert Voecks, managing secretary, and the directors are Alex. C. Benz, Fond du Lac, E. V. Tomeloshin, St. Louis, and William E. Kohn, St. Paul. All have been recommended by the board of directors for reelection. Other nominations probably will be made by branches.

All members of the association are permitted to vote in the election. Ballots will be cast at branch meetings all over the United States and the result will be transmitted to the home office here. The blanks containing names of candidates now are being sent out and are expected to be filled by Dec. 20. Ballot returns will be made the following day by the directors.

The term of trustees of the association will hold in their meeting of the year on Tuesday, Dec. 22.

Other business taken up by the directors will be the annual business reports of the association and approval of the new series of insurance which go into effect Jan. 1. These are children's insurance and double indemnity and level disability features of policies.

## WRISTON WRITES ARTICLE IN NATIONAL LAW JOURNAL

"America's Part in International Conferences" is the title of a very technical article by Dr. Henry M. Wriston, president of the college, in the October number of the American Journal of National Law. Written with concern to diplomatic, scientific and commercial conferences, national and international in scope, the article was characterized by Dr. Wriston as "of tremendous interest to perhaps fifty people in the United States. Otherwise no one will know that it has been written."

LETTER FROM LESLIE PRESCOTT TO THE LITTLE MARQUISE—CONTINUED

Although I have seen Melville Sartoris but twice, this influence he exerts over me has grown until today I am wondering, as I write, if he will look to me as he did the night of my party in Albany when he bade me good night and added softly, "My lovely lady of the snows."

Little Marquise, tonight when I go to the Travelers' Club I am going to see, in truth, a "lady of the snows." I didn't know that there was so much of the coquette in me and I don't know why even now I should take these pains to pique the attention of Melville Sartoris.

Of course, if I should tell this to any one but you, my dear confidante, he would tell me that perhaps it could be better if I dressed myself in scarlet rather than in white, but you and I know, my dear, that human nature requires the occasional use and pliancy of another point of view and why should I not take it from a man who tomorrow night will be as many miles away with the prow of his yacht turned toward the east— from a man I probably will never see again.

I have a new white satin gown, covered with tulle just as soft and shiny as snowflakes. If I had my pearls I should wear them twisted about my hair and throat, but then I am going to wear diamonds in my bobbed hair, but no other jewels.

I wonder if he will remember, and again call me, "My lady of the snows." I wonder what he meant by it. Does he think I am cold? I expect so. I sometimes feel I have been growing colder ever since I was married. Only to you could I tell this, but, oh, it is such a relief to confide in someone—such a relief to be able to report this reaction which came upon me perfectly unawares, which brought to me an unknown thrill, which made me perhaps more forgiving of Jack's derelictions.

I find now that it is all very human, but, oh Little Marquise, I am glad that Melville Sartoris is going to sail away tomorrow. I cannot be like Jack and court danger.

It is growing near the time to dress. Into the secret drawer goes this letter. I will write more when I come back from dinner. I must send a telegram to Ruth asking her when she is coming. I have not heard from her in two or three days. I hope Walter is not worse.

I am just adding a line to this letter, Little Marquise, to tell you I have just received a telephone message from Mr. Sartoris. I told him that there would be twelve of us on the yacht. I heard him draw his breath sharply and then he said, "You must invite another one, or perhaps another couple."

"Why?" I asked.

"Because with your twelve guests I would make the thirteenth."

"You are superstitious."

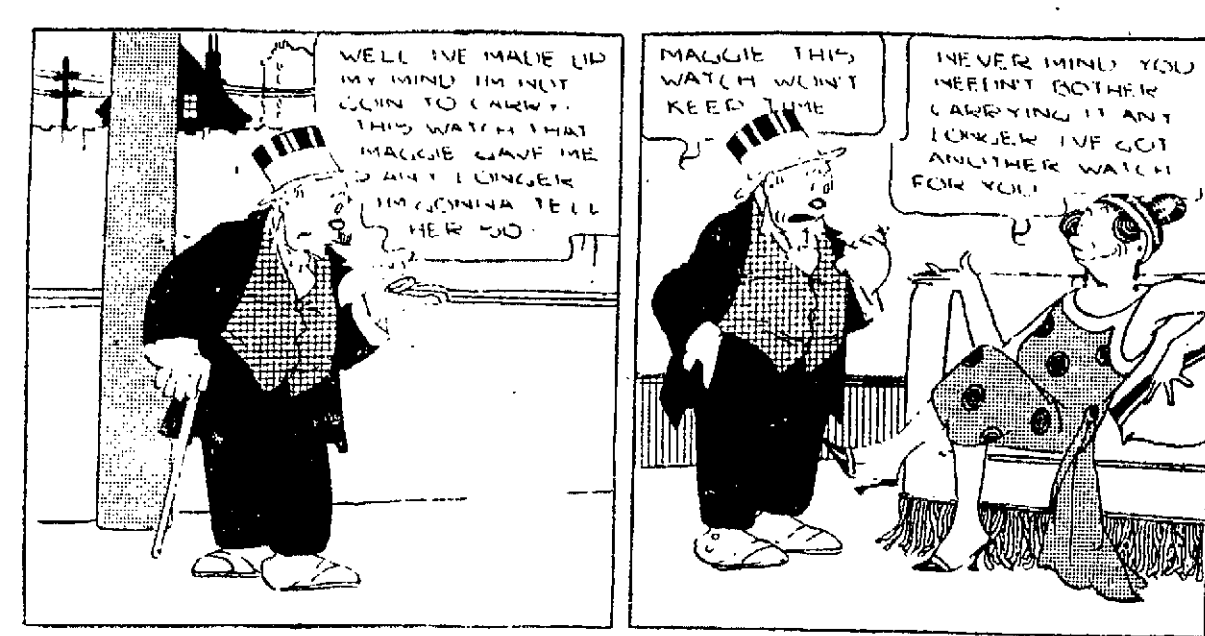

"Not particularly for myself, dear lady, but I would do nothing to offend the Gods of Fate who might possibly bring you sorrow."

# ORANGE SQUAD DEVELOPS PROMISING MATERIAL

## TOUGH SEASON AID IN MAKING A SQUAD FOR 1926

Seven Sophs of This Year Will Be Set for Battle for Conference Honors in 1926

SEASON SCORES		
Appleton 0	La Crosse 7	
Appleton 3	Fond du Lac 3	
Appleton 0	W. Green Bay 3	
Appleton 0	E. Green Bay 33	
Appleton 0	Kaukauna 12	
Appleton 0	Oshkosh 14	
Appleton 7	Sheboygan 41	
Appleton 0	Marinette 41	
Appleton 10	Opponents 148	

Stricken by the loss of 10 star lettermen, faced by the hardest schedule in years and building up an entire new athletic system which has taken four coaches in four straight years, Appleton high school finished its most disastrous season in many years this week. With Coach John T. MacAuliffe, one of the best leaders in the valley, trying to mold a team out of inexperienced material, injuries disrupted two entire backfields before the season was well underway and the untold staff was unable to stand the strain. Prospects for next year are promising, with many sophs playing positions on this year's crew and MacAuliffe intends to stick to the ship and take advantage of the men he has toughed from the ground up in putting out a real team next year.

Starting the season at LaCrosse with a rear wall composed of Friederichs, Kitzinger and Johnston as backs, the Orange got the first bad break, and were literally routed to two touchdowns after outplaying the Edmondson all the way. Appleton led 7-0 and the break both of the men and coaches for the rest of the year. Friederichs, his first game of high school football, Johnston was a sub as a fresh last year, Steens was a veteran tackle and Kitzinger was a sub end in 1924, yet they started well. The next week Fondy's strong team was held to a 3-3 score and prospects looked good for a winning season, but Friederichs suffered the first of a string of Orange injuries, breaking a collarbone, which bothered him all day even when he got back a month later.

Reorganizing a rear wall put Kitzinger at quarter, with Rammer, a promising back, and Strutz a soph bolstering the rear wall. West Green Bay squeezed out a 3-0 win over this crew at the Bay and things still seemed bright. However, East high, crack team of the conference and 1924 champs, took the lead out of the Orange's hands with a 2-0 victory. The second back to be hurt in succession, went out with an injured shoulder in this game and was done for the season, causing another big shift in the rear wall. Wrecked by the terrible training, the Maen were unable to make back a week later and Kaukauna, the Orange's 1924 rival won its first game in 25 years from a local team, 12-0.

## \$5,000,000 ATHLETIC PALACE OPENS TONIGHT

New York—(AP)—Tex Rickard's \$5,000,000 coliseum, the new Madison Square Garden, opens Saturday night with a program of amateur professional and motor races, the preliminary events to the thirty-ninth Madison square lake race which opens at 12:30 Monday noon. Fifteen teams will enter on six day grand Sunday night at 9 o'clock.

are bright for a winning team, with a team which reaches a high peak the year after. Every school in the conference except West high, Marinette and Appleton, loses about an entire set of sophs, and both West and Marinette lose most of their lines. While Appleton graduates a number of regulars, so many men got a chance this year that a nice crew will be back to start next year's work. Many are sophs, giving them two years. The entire Orange backfield is composed of sophs. Aid of one or two good men from the junior highs also are expected.

Regulars who leave school include Voecks and Capt. Steens, premier tackles, Ashman, end; Packard, Schultz and Haag, guards; Kitzinger, Friederichs, Rammer, backfield men. Men returning are Tebecheer, center, Liehen, guard and Pfeiffer, end, two men, Gieselow, a soph and regular guard; Vanderhagen, tackle; Holtermann, guard; Roemer, John, Strutz and Witke, sophs, and backfield sophs who saw plenty of service this year.

Tebecheer was easily the best center in the conference until hit by injuries. Liehen is a vet at guard or center, Pfeiffer is a two-year end, Gieselow got his chance at guard in the final two games this year and his work there earned him a regular berth. He, though, but a soph, should be one of the best in the valley next year. Holtermann and Vanderhagen are good linemen also. Johnston, when more experienced will be the best punter in the conference and a plunger of good calibre. Some of his punts went 60-70 yards this year. He is weak on stopping passes, however. Strutz is a nice passer and receiver of passes while Gelbke and Roemer are lightly-built speed merchants. Witke is a fighting fullback and a hard tackler, but a slow thinker. All these men, except Roemer played regular when the season closed, piling up good experience for next year. Vanderhagen, had a regular tackle berth earned until an injury put him out also. Coach MacAuliffe developed a potential future team which Appleton will see real football from, and the last season this year, though Mac's first here, is no discredit to his ability. He has gained the respect of all of his many athletes by his work.

Coming through with 2-1 wins over their opponents Wednesday evening in Fox River Valley Bowling League matches, the three leaders in the Fox River Valley Bowling League matches, the three leaders in the 1925 loop-race held their top positions. Both the Kimberly Blue Moons and the Menasha Alley crew of Menasha triumphed over the Tourist Inns and Electric City squads and their victories though lowering their percentage kept them in a tie for the top notch. Hoppies Weinners of Appleton hung right on the heels of the leaders by taking their third straight 2-1 win over the Hilgenberg's of Kaukauna, the last place five since the loop season opened. A win for the Weiners in the near future will put them on top if an opponent loses, while winning entire series of three games will send them there in two weeks if the leaders get no better than 2-1 breaks.

Hilgenberg's capped their first game of the season, though they still remain in the cellar. When the Electric City crew lost to the Menasha alleys, loop leaders, it shot them out of a tie for third place to a fourth place berth and gave the Hopple crew an undisputed third position.

Dick's five of Little Chute took its first series win at the expense of the Appleton Arcades and as a result came out of seventh place into a tie for fifth with the Appleton crew, which it defeated. Scores of the games were:

Dick's Five, Little Chute—862, 822, 921, 2605; Arcades 857, 850, 853, 2560.

Hilgenberg Alleys—898, 905, 882, 2685; Hoppies Weinners, App. 887, 929, 882, 2790.

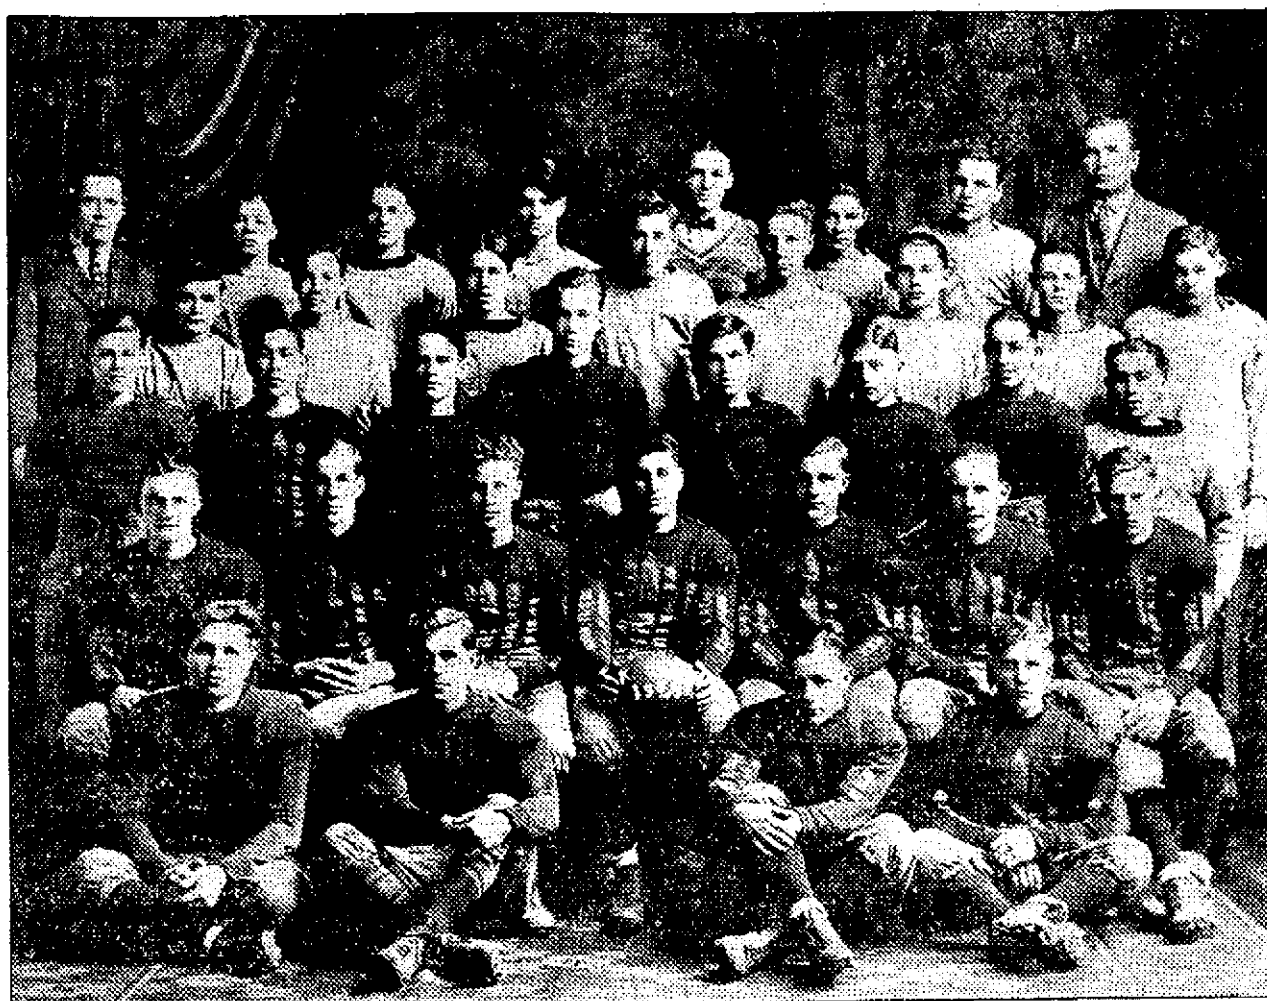

Blue Moons, IC—840, 950, 970, 2760; Tourist Inns, Men. 888, 928, 850, 2668; Electric City, Kau. 875, 851, 914, 2640; Menasha Alleys, Men. 919, 993, 919, 2822.

are bright for a winning team, with a team which reaches a high peak the year after. Every school in the conference except West high, Marinette and Appleton, loses about an entire set of sophs, and both West and Marinette lose most of their lines. While Appleton graduates a number of regulars, so many men got a chance this year that a nice crew will be back to start next year's work. Many are sophs, giving them two years. The entire Orange backfield is composed of sophs. Aid of one or two good men from the junior highs also are expected.

Regulars who leave school include Voecks and Capt. Steens, premier tackles, Ashman, end; Packard, Schultz and Haag, guards; Kitzinger, Friederichs, Rammer, backfield men. Men returning are Tebecheer, center, Liehen, guard and Pfeiffer, end, two men, Gieselow, a soph and regular guard; Vanderhagen, tackle; Holtermann, guard; Roemer, John, Strutz and Witke, sophs, and backfield sophs who saw plenty of service this year.

## KAUKAUNA HIGH HAS RECORD GRID SEASON

Top Row Left to right—Mc Ginnis, trainer, Ashle, Ludtke, Hansen, Mc Fadden, Licht, Mislinski, Coach Williams Smith.

Second row—Hishon, Lehrer, Ferguson, Wurly, Hitting, Solberg, Smith, Kronforst.

Third row—Donner, Derus, Langley, Whitman, C. Farwell, Vils, Kemp, Esler.

Fourth row—Noie, end, Boyd, center, Posen, tackle, Capt. Farwell, fullback, Gonyo, end, Miller, guard; Macerone, halfback.

Fifth row—Hallock, tackle; Kilgas, quarterback, Miller, guard; Verbeten, halfback.

In two years of coaching, William "Tiger Bill" Smith, former Lawrence star, has developed football teams at Kaukauna high school which now are able to step out of their class and whip teams in schools of much larger size. When Bill came to Kaukauna,

athletics were in a slump, but in his first year the Orange and Black lost only one game and that to Appleton. Its biggest rival by a 12-6 score. This fall Coach Smith lost 14 stars of a squad of 23 but he put out a team which lost only to West Green Bay, and trimmed Appleton, the biggest thing the Kaw team has ever done. Official records show that it was the first time the trick has been turned in 25 years. The 12-0 score showed the superiority of the Tigers.

The above men are the members of the first three teams of a squad of 45 men, the largest group that ever have tried out for the local team. Last year, Coach Smith had from 11 to 29 men to work with and he made a team of them.

Four freshmen, Verbeten, M. Miller, W. Miller and Hallock, made this year's team and these men will be the backbone of next year's squad.

The team will lose Kilgas, the best quarterback over in Kaukauna high school, Farwell, fullback and captain, backfield ace, Gonyo, one of the best ends in this district and Posen, tackle, a strong lineman.

But even losing all these men there is still a wealth of material left for Kaukauna to work with, at least 35 men, who are of good calibre. Kaukauna high school will have a team hard to beat next year. Records: 1924—Shawano 0 Kaukauna 8; De Pere 0 Kaukauna 21; Menasha 0 Kaukauna 54; W. Green Bay 17 Kaukauna 0; Neenah 0 Kaukauna 13; Two Rivers 0 Kaukauna 10; Appleton 0 Kaukauna 12—Opponents 17 Kaukauna 132.

## OLD ORANGE STAR SHINES AT N. D.

John Roach Plays Good Ball for Rockne; Considered Horseman Successor in Army Game

When Notre Dame university, 1924 national champions, finished its 1925 grid season Thursday with only two defeats chalked up against it in a schedule of some of the hardest teams in the country, an Appleton boy and former Appleton high school grid star, played his last game for the Fighting Irish and compiled a record during this year's play that ranked with some of the best backs of the country.

John Roach, former Orange captain and a halfback at the local school for three years, started practically every game for the Rockne men this year and figured in many of the snappy drives which carried the ghosts of the Four Horsemen through what most schools would consider a full season. Coach Rockne captured the Irish flag from his first year at the Irish school and last year the presence of the greatest backfield combination football has known, Crowley, Layden, Miller and Stuller, kept him from playing in many battles. This year, however, he got his chance and made good. Against Northwestern, conqueror of Michigan, he punted 83 yards, one of the longest punts of the year, and his passing has been good. He scored two touchdowns this season and kicked the extras point after each. With a group of star backs, Roach earned a place on the squad and played in practically every game, starting most of them. His best game was the Army battle which the Rockne men lost and in this game he was described as a worthy successor to one of the Four Horsemen. The article which appeared in the South Bend Tribune said that but for a lack of steadiness and erratic interference he would have played in more varsity games.

The article was headed Roach Breaks Loose with a subhead of Rockne Back Looks Like Horseman Against West Point. It advertised Appleton in great detail, the following: "Down East after the Army game they ranked John Roach as the only likely successor to the 'Four Horsemen' on the present Notre Dame team, and when the boy from Appleton, Wis., turns loose he certainly fits with the traits that made these four gents prominent. Roach is fast and shifty in eluding tackles and hard on driving which in a good combination for a halfback. Lack of steadiness and erratic interference have kept him from playing in more varsity games."

Another boy, well-known to fans of Appleton and vicinity, playing a regular guard position in his first year of eligibility, comes in for a little praise also. This lad is Richard "Red" Smith as the "home of halfbacks." Hanon of Combined Locks, former Kaukauna high and Lawrence guard. He

## VALLEY CONFERENCE COACHES MEETS AT BAY

Coach John T. MacAuliffe, C. W. Cross, athletic manager and Principal H. H. Hobbs, will represent Appleton high school at the meeting of the Fox River Valley High School Athletic Conference Friday afternoon, Dec. 1 at East high school Green Bay. East Green Bay, 1924 champ, will be awarded the 1925 conference football title as a result of its victory over Green Bay West in the final game Thursday. Plans will be made for the coming basketball season as well as for the 1926 football season. Several other matters of athletic business will come before the officials.

## WIRE WORKERS TRIM SQUEEZE PIN SQUAD

Appleton Wire Works pin squad gained revenge for a past whipping when they trimmed the Orange Squeeze girls in three straight games on the Elk alleys Tuesday evening. A margin of 256 pins separated the two teams in spite of a 150 pin handicap for the girls. None of the knotters were able to garner a 200 mark, a 199 by George Ward coming the nearest. Ward also shot a 188 and a series of 571 for high scores. Orange Squeeze—E. Dunn 128, 171, 155, 464; S. Roudelush 146, 120, 129, 496; M. Vander Stern 94, 126, 145, 365; V. Wenzlaff 143, 176, 145, 464; M. Tornow 145, 163, 111, 419; handikap 50, 150; Totals 116, 806, 736, 2258.

played regular on the Blue squad his first year in school and then went to Notre Dame where he played international football until eligible this year. He was chosen all-campus fullback last year. A big husky boy, Red had been one of the mainstays of the Irish line. Here's what they think of him down there: "Smith Spells Stop—Another Red-top Big Bulwark of Notre Dame Line. At least Richard 'Red' Smith does. This distressingly healthy right guard comes from Combined Locks, Wis., and as far as right guard goes he must have used the 'combined locks' in closing that position. He is an important half of the Smith brothers guard combination. While they don't make enough drops they are responsible for a great many back drops, frequently dropping the ball carrier for a loss of yards if not of consciousness. Not that Red is rough, but wrestling with a Wisconsin log will not turn out a crocheting artist and some of Red's spare time has been spent in that pursuit."

Two other Badger state boys are on the team as regulars. Heardon of Green Bay, playing at half, and Hauusack of Antigo at fullback. Green Bay is known at the South Bend school as the "home of halfbacks." Hanon of Combined Locks, former Kaukauna high and Lawrence guard. He

## LOCAL SQUAD SHOOT HIGH TO BEAT NEENAH

Neenah Alleys bowling squad of Neenah were no match for the strong Bretschneider quint of this city in a match held Wednesday evening on the Olympic alleys. The local squad took three games in a row, piling up a neat total of 2,768 pins 174 pins ahead of the Neenah men. Bill Grotz had a perfect evening, in the double century class hitting 201, 200, 207 for a 603 mark. A. Jimos with a 269 and C. Jimos with a 302 were the only other Appleton men to reach the honor class. Munch shot a 205 and Woolner a 202 mark for the only big scores for the losers.

## KEARNS IS UNRULY, ARRESTED IN CANADA

San Diego, Calif.—(AP)—Jack Kearns, former manager of Jack Dempsey, heavyweight champion of the world, and present manager of Mickey Walker, welterweight champion, was arrested at the international border at Tijuana late Friday night when he was said by officers to have created a disturbance. At the San Diego county jail where he was booked on a charge of disturbing the peace, Kearns gave \$500 cash bail to insure his appearance in justice court.

Hollywood, Calif.—Newsboy Brown, New York flyweight gained a decision over Lizz Schwartz, New York. Knute Hansen beat Benny Touchstone, Los Angeles.

## East High, Marinette Win Three Berths On All-Star Valley Conference Squad

Voecks, Star Appleton Tackle, Only Orangeman to Place on First or Second Team

**FIRST TEAM**  
Quinn, W. Green Bay, L. E. Voecks, Appleton, L. T. Butterfield, E. Green Bay, L. G. Bultman, W. Green Bay, C. Heinke, Sheboygan, R. G. Lucke, Marinette, R. T. Heil, Marinette, R. T. McGuire, E. Green Bay, Q. Zuidmuller (C), E. Green Bay, L. H. De Temple, Marinette, R. H. Brunette, Fond du Lac, F.

**SECOND TEAM**  
Radoksi, E. Green Bay, L. E. Radoksi (C), W. Green Bay, L. T. Whelan, Fond du Lac, L. G. Decker, E. Green Bay, C. Barsch, Oshkosh, R. G. Kresky, Marinette, R. T. Ellieson, Sheboygan, R. E. Reetz, Oshkosh, Q. Murphy, E. Green Bay, R. H. Peppers, Manitowish, R. H. Roe, Oshkosh, F.

East Green Bay, 1925 Valley High School conference champions, and Marinette placed three men each on the first all-conference squad chosen by members of the Post-Crescent staff after the final loop games on Thursday. West Green Bay, runners up, placed two men on the first squad and the remaining places went to Sheboygan, Fond du Lac and Appleton. Choosers of the team saw every squad of the conference in action with the exception of Manitowish, which was unable to win or tie a game. On the second team, the fighting Oshkosh squad which improved by leaps and bounds in the final games of the year, placed three men, and East high three. West high, Fond du Lac, Sheboygan, Marinette and Manitowish took the remaining positions. Appleton placed but one man on either of the two squads. All of the positions were close with one or two others worthy of great consideration.

Quinn, West Green Bay, was easily the outstanding end in the conference. He nabbed passes better than many college and university winners and showed plenty of fight in his game. His one weakness of early season, tackling, was more than remedied in the final battles. Heil, Marinette, Ellieson, Sheboygan and Bokoski, East high, waged a fairly even battle for the other end job with the Marinette man having a slight edge in all-around play. Other good ends were Saunders of East high, Heinke, Marinette and Slewert of Oshkosh.

Voecks of Appleton, playing on a team which lost five games and tied one, was the outstanding tackle of the conference. He was the only Orangeman to play real football all year and his consistent tackling and offensive play in every game gave him the leading berth. His mate, Capt. Lucke, was Marinette's, was the outstanding man in the Purple line.

Radick, West high leader and Kresky, Marinette tackle, were the outstanding men in the remainder of the pack. Radick was a player kicker with a glided toe while Kresky not only shone in this department but also hurled practically all of the Purple passes when called out of the line, heading a nice aerial attack. Both are towers of strength on defense.

Other tackles worthy of mention were Tebecheer, Sheboygan, and Capt. Steens, Appleton. Butterfield and Heinke, were the outstanding men at guards with Whelan and Barsch close behind. Their play was not spectacular from the spectator's viewpoint, but their steady work bolstered up the center of their respective lines and gave the Purple line its steady tempo. Between Bullman and Becker of the rival Bay highs with many fans favoring Becker, the second team choice, Tebecheer of Appleton, outplayed both in games with these schools and was easily all-conference material until an injury in the Oshkosh game put him out of the remaining two battles and the last half of the Oshkosh game.

The pilot job was another close choice with McGuire and Reetz, both field generals of real quality, heading the pack. McGuire had a slight edge, although many critics think he showed up to better advantage because he played on a superior team and would give the hard-fighting Sawdust city boy the edge because of his work with a weak squad. However, in the East high-Oshkosh game which East won by 51-0, the highest conference win of the year, Mac outshone Reetz in all-around play. Other men who could step in at halfback on the heels of this pair are Veightman, Marinette, Capt. Hutchings, Fondy, and Testwuide, Sheboygan youngster.

The first team backfield would be one of the best and most versatile in western prep school circles. Four triple threat men of high class make up its personnel. Zuidmuller, given the captaincy, is easily the star of the conference, a finished product in every way. He ranks with the best in the country. De Temple the other half, is a flashy kick, good at receiving and handling the pigskin, but especially good at broken field running. His side-stepping, pivoting and twisting has kept Marinette near the top all year. Brunette played about the same role for Fondy. He can kick, run, pass and receive passes and is worthy of any all-star team.

Roe, Oshkosh, star of another losing team, is the best line plunger in the West, but his all-around work falls slightly below Brunette's. Other good fullbacks are DeCoster, West high, Sargent, East high and Pine-

## FAIR PINSTERS TIE STATE MARK

Addition of 5 Booster Squads Ties Racine's Record of 80; Local Women Work for 90

Enthusiastic work on the part of Appleton women added five teams to the list of Appleton booster squads for the 1926 State Womens Bowling Tournament during the last week and brought the total up to 80 teams, the present state record. The meet will be held here from Feb. 1-12, the first time it has been this far north and the local fair sex bowling association is working hard to put it over in good style. Racine, last year's touring city, set a state record at that time with 80 booster teams on the drives to start the meet and Appleton is out to break it. Local women are striving for at least 90 teams to advertise the city and expect to get the 10 more in the next week with the help of organizations of the city. Many merchants still have a chance to boost and probably will take advantage of it.

New "Boat For Appleton" firms are Venzel Bros., Ellis Club, Central Motor Car Co., Riverside Greenhouse and Irving Zuelke. gar, Marinette who was in line for a conference berth until a leg injury put him out.

Murphy was a part of East high's star backfield, the best all-around set of backs in the valley while Peppers was Manitowish's "entire team." While his team lost every game he played great football all season. Good halves were plentiful with Gershenfeld, Sheboygan, Hanson, Pony, and Capt. Konrad of Oshkosh, leading the race for runner up honors.

The pilot job was another close choice with McGuire and Reetz, both field generals of real quality, heading the pack. McGuire had a slight edge, although many critics think he showed up to better advantage because he played on a superior team and would give the hard-fighting Sawdust city boy the edge because of his work with a weak squad. Firms cooperating in getting out the state programs are Hotel Conway, Hotel Appleton, Hotel Northern, O. K. Taxi Line, State Lunch, Smith, J. J. and Jense's Arcade.

The publicity and convention department of the chamber of commerce is lacking the project and is aiding with a nice set of novelty programs in the way of advertising Appleton and vicinity.

San Francisco—Tommy Cello, San Francisco lightweight, won a decision over Jack Silver, San Francisco. Frankie Hansen, San Francisco welterweight, knocked out Dave Slavin, Newark. Battling Bolo, Manila lightweight, got the decision over Joe Terris, St. Paul.

## STATE OF WISCONSIN

In Municipal Court, Outagamie County.

Stollwerk Chocolate Company, a foreign corporation, Plaintiff,

vs.  
E. J. Herrmann, Defendant.

Sheriff's Sale on Execution.

By virtue of a writ of execution issued out of and under the Seal of the Circuit Court in and for Outagamie County, Wisconsin, upon a judgment rendered and docketed in the Municipal Court of Outagamie County, Wisconsin, on the 11th day of August, 1924, and upon which a transcript of said judgment was filed with the clerk of the Circuit Court for Outagamie County, Wisconsin, on the 12th day of August, 1924, in an action wherein the Stollwerk Chocolate Company, a foreign corporation, is plaintiff and E. J. Herrmann of Appleton, Wisconsin, is defendant, in favor of the said plaintiff and against said defendant E. J. Herrmann, for the sum of ONE HUNDRED TWENTY and 18/100 (\$120.18) dollars, which said sum is due to me as Sheriff in and for Outagamie County, Wisconsin, I have levied upon the right, title and interest of the said defendant, E. J. Herrmann, in and to the following described property, to-wit:

The West half (W1/2) of Lot Four (4), in Block Twenty-two (22) Fifth Ward Plat, in the City of Appleton, Outagamie County, Wisconsin, according to the Assessors Map of said city, together with all the buildings thereon.

Notice is hereby given that I, the undersigned, sheriff, will sell at the interest of E. J. Herrmann in said real estate, subject to such liens as may now be existing against it, and prior to the plaintiff's lien, to the highest bidder at public sale, at the east door of the Court House in the City of Appleton, Outagamie County, Wisconsin, on the 19th day of January, 1926, at ten o'clock in the forenoon, said day to satisfy said execution, together with interest and costs thereon.

Dated this 28th day of November, 1925.

## STATE OF WISCONSIN

In County Court for Outagamie County.

In the matter of the Estate of Richard H. Hagg, deceased.

To Ernest P. Hagg, one of the heirs at law of Richard Hagg, deceased.

Whereas a verified petition has been filed in this court in the above entitled matter by Clara Kraft, who formerly was Clara C. Hagg, setting forth, among other things, that you are one of the heirs at law of Richard Hagg, deceased and will become entitled to a distributive share of the assets of said estate; that you are a non-resident of the State of Wisconsin and that she, the said Clara Kraft, is one of your creditors and praying that she be permitted to intervene in said proceedings, and in the administration of said estate, to compel the application of said distributive share, or such thereof as may be necessary, in payment of your debt to her;

Now, therefore, you are hereby cited and required to appear before our court on the opening of the court on that day or as soon thereafter as the same can be heard.

Dated November 20 1925.

By order of the Court,  
FRED V. HEINEMANN,  
County Judge.

## CAVOSIE STARS AGAIN

## AS TEAM TAKES TITLE

When Ironwood high school, champions of upper Michigan, walked one of the Detroit high schools, 41-0 Thursday to take the title of the entire state, one of the best high school gridirons who ever pulled on a corked shoe was one of the biggest aids in the win. Capt. John Cavoise, who came into fame recently when he booted a 55-year old dropkick from a high school game, was a star in the game for his school. Cavoise is an all-around man, being a "beat" on passing, kicking, end-oncoming and plunging. He is six feet one inch tall and weighs 192 pounds. He is said to be a worthy successor to the famous George Gipp of Notre Dame. Cavoise plans to enter Michigan University when he completes his prep career. His average around 70 yards as a punter and as a passer he's a wonder. He's the fastest man on the Ironwood team.

Cavoise is somewhat of an all-around athlete. For, besides being a twinkler on the gridiron, he also stars in baseball and basketball. He's been shining on Ironwood teams for the past three years.

Fred Trease, Lawrence college athlete manager and a former Maize and Blue track star, is a product of Ironwood.

## BLUE MOONS HOLD TOP

## IN VALLEY PIN LOOP

Smiting the pins for a mark of 2,700, the Kimberly Blue Moons, won two out of three games with the Tourist Inn of Menasha Wednesday evening at the Kimberly alleys to hold themselves in a tie with the other Menasha squad, the Menasha Foxes for top position in the Fox Valley Valley Bowling League. A total of 80 pins separated the squads. J. Verhulst of the winners shot 632 for high series of the evening, his games including marks of 211-237-184. Other 200 marks went to A. Breckin of the winners with a 233. O. Gossens a teammate, with 206 and Kraus and Resch of Menasha. Kraus got a 211 and Resch a 203.

Blue Moons—J. Verhulst 211, 237, 184, 632; A. Breckin 169, 159, 233, 561; W. Johnson 126, 157, 156, 439; O. Gossens 156, 178, 206, 538; A. Williams 178, 184, 191, 569; totals 810, 960, 970, 2750.

## SPORT BRIEFS

Tex Rickard, always kind to foreign pugilistic talent, says he is ready to give the Spanish heavyweight, Paulino, a chance against some good American fighter if the European boxer fills his promise to visit this country.

Paulino is soaring too high in aiming to meet Dempsey, however, Rickard declares.

New York—Gene Johnson, who gained a newspaper decision over Jimmy Goodrich, lightweight champion, in Elizabeth N. J., was knocked out by Sammy Vogel, New York, in five rounds.

Denver, Colo.—Jimmy Sacco, Boston lightweight, scored a technical knockout over Fighting Noble, Rawlins, Wyo., Don Long, Colorado Springs, Colo., defeated Jackie Gordon, Salt Lake City, and Frank Paulus, Salt Lake City, won over Harry Sae, Portland, Ore., Chinese flyweight.

New Orleans—W. L. (Young) Strubling, of Atlanta won a technical knockout over Billy Britton, New York.

Detroit—Tony Marullo, New Orleans middleweight, won a judge's decision over Bob Sage, Detroit.

## RUSSIAN FOLK SONGS

## PUBLISHED IN VOLUME

Czech, Siberia—(AP)—Folk songs of the various nationalities making up the Soviet republic are being revived and printed to a very considerable extent and are affording much interesting material for modern composers. Alexander Zvyagintsev recently published an unusual volume called "One Thousand Songs of the Kirghiz People." This is said to be the first time the songs of these 6,000,000 nomadic people which roam over a great empire in Siberia, Mongolia, Turkistan, and European Russia have been recorded for the use of modern musicians.

The Kirghiz are supposed to be a blending of Mongolian, Tartar and Finl and Beod, and their language is Turkish basically but has been much influenced by Chinese and Russian. A collection of songs of the Crimean Tatars and songs of the Kazan Tatars and Tatars are being prepared for publication.
